PUGET SOUND ENERGY
Electric Tariff G

SCHEDULE 141CEI
CLEAN ENERGY IMPLEMENTATION TRACKER

APPLICABILITY: This Clean Energy Implementation Tracker rate shall be applicable to the electric energy delivered to Customers under any schedule contained in this tariff except those Customers served on Schedule Nos. 448, 449, 458, and 459 and Special Contracts.

PURPOSE: This schedule implements surcharges to collect the costs incurred and associated with the Company's 2021 Clean Energy Implementation Plan ('CEIP'). This schedule will recover the costs associated with the Company's approved Clean Energy Implementation Plan in Docket UE-210795 that are not recovered in other tariff schedules. Such costs included in this Tracker may include, but are not limited to: distributed energy resource costs; public participation plan costs; cost of tracking and monitoring CEIP progress; and O&M expense and capital expense for any projects that enable Clean Energy Implementation Plan implementation.

COST RECOVERY PROCEDURE:

a. This tariff is set to recover costs until rates are set in the Company's next general rate case in Docket UE-240004 associated with the Company's Clean Energy Implementation Plan as outlined in the Purpose section. Such costs include all return on rate base, depreciation, and O&M expenses to enable the Company's Clean Energy Implementation Plan. The costs outlined in the Purpose section will be recovered through rates in this Schedule until the rates in Docket UE-240004 become effective. For billing purposes the Schedule 141CEI rates will be added to the rate(s) shown on each schedule for electric service. (C) (N) (D) (D) (N) (N)

b. The rates in this schedule will be based on operating costs and rate base through December 31, 2024, in addition to the approved amortization of costs deferred under Docket UE-230131 prior to the initial effective date of rates under this schedule. All CEIP investments recovered through this tariff schedule are subject to review, including but not limited to an examination of prudence during PSE's next general rate case after Docket UE-240004. All costs associated with the Company's current and future CEIPs, including those that have been recovered in this tariff, will be included as part of base rates in its next general rate case filed after the effective date of this schedule sheet. (D) (N) I (D) (C)

(Continued on Sheet No. 141CEI-A)

PUGET SOUND ENERGY
Electric Tariff G

SCHEDULE 141CEI
CLEAN ENERGY IMPLEMENTATION TRACKER (Continued)

TRUE-UP: Initial rates in this tariff schedule are based on estimated costs associated with implementing the Company's 2021 CEIP, as well as forecasted billing determinants over the period these rates are in effect. A true-up of the estimated costs and forecasted revenues will be provided for in the Company's next general rate case after Docket UE-240004 and will include: (N)

a. A true-up equal to the actual operating expenses, including depreciation and amortization expenses, and return on rate base paid or incurred during the rate period minus the amounts set in rates for that rate period and
b. A true-up to account for the difference between what was expected to be collected when rates were set initially versus the amount actually collected.

As part of the Company's next general rate case after Docket UE-240004, the Company will provide (N)
reports of the actual amounts for operating expenses and rate base that are included in the true-up
calculation for a prudency review. The recovery methodology for how to recover or pass back the (C)
true-up portion of the CEIP costs recovered through this Tracker was established in Docket UE- (N)
240004. (N)

If a true-up calculation results in expenses/return being lower or actual revenues being higher than what was used to set rates, the difference will be returned to Customers in a manner approved by the Commission. If a true-up calculation results in expenses/return being higher or actual revenues being lower than what was used to set rates, the difference will be collected from Customers in a manner approved by the Commission.

MONTHLY RATE: The rate shown below and on the following sheets shall be added to the rate(s) shown on each schedule for electric service. These rates will be in effect through the date new base rates take effect in PSE's next general rate case.

SCHEDULES 7, 307, 317, & 327

Energy Charge:	$0.000000 per kWh		(R)

SCHEDULES 7A, 11 & 25

Energy Charge:	$0.000000 per kWh		(R)
Demand Charge:	$0.00 per kW	of Billing Demand	(R) (T)
