SCHEDULE OL-1

OUTDOOR AREA LIGHTING SERVICE

APPLICABILITY

Applicable to outdoor area lighting service for the illumination of areas where street and highway lighting services are not applicable and can be supplied from existing secondary overhead facilities of the utility of suitable phase and voltage. The utility will install, own, operate and maintain the complete lighting installation, excluding any customer-owned supports. This schedule is also applicable for utility-owned ornamental street lights under Special Condition 3.

TERRITORY

Within the entire territory served by the Utility.

RATES

TOTAL RATE FOR UNBUNDLED AND BUNDLED CUSTOMERS - $ PER LAMP PER MONTH

Lamp Watts	Lamp Lumens	Avg. Energy Use kWh/Lamp/Mo.	Distr.	Total UDC[1]	*Unbundled Customers (Total UDC + WF-NBC + DWR-BC)[2]*	*Bundled Customers on EECC (Total UDC + WF-NBC + DWR-BC + EECC)*
HPSV, Rate A, Street Light Luminaire, Reactor Ballast						
100	9,500	41	10.01	11.70	11.94	17.00
150	16,000	59	10.93	13.36	13.71	20.99
HPSV, Rate A, Street Light Luminaire, Regulator Ballast						
250	30,000	109	14.24	18.75	19.39	32.85
400	50,000	165	16.62	23.44	24.42	44.79
1000	140,000	382	29.35	45.12	47.38	94.54
HPSV, Rate B, Directional Luminaire						
250	30,000	109	14.23	18.74	19.38	32.84
400	50,000	165	31.04	37.86	38.84	59.21
1000	140,000	382	28.40	44.17	46.43	93.59

1. Total UDC = Distribution + (Non-Distribution UDC energy rates x Avg. Energy Use)
2. Direct Access, Community Choice Aggregation and Transitional Bundled Service Customers pay the applicable Vintaged Power Charge Indifference Adjustment (PCIA). Bundled PCIA is embedded within the bundled generation rates.

RATES (Continued)

Rate Components

The Utility Distribution Company Total Rates (UDC Total) shown above are comprised of the following components (if applicable): (1) Transmission (Trans) Charges, (2) Distribution (Distr) Charges, (3) Public Purpose Program (PPP) Charges, (4) Nuclear Decommissioning (ND) Charge, (5) Ongoing Competition Transition Charges (CTC), (6) Local Generation Charge (LGC), (7) Reliability Services (RMR), and (8) Total Rate Adjustment Component (TRAC).

Utility Distribution Company (UDC) Total Rate shown above excludes any applicable commodity charges associated with Schedule EECC, Schedule WF-NBC (Wildfire Fund Non-Bypassable Charge) and Schedule DWR-BC (Department of Water Resources Bond Charge).

Certain Direct Access customers are exempt from the 2006 RDS component, as defined in Rule 1 – Definitions.

Franchise Fee Differential

A Franchise Fee Differential of 5.78% will be applied to the monthly billings calculated under this schedule for all customers within the corporate limits of the City of San Diego. Such Franchise Fee Differential shall be so indicated and added as a separate item to bills rendered to such customers.

(Continued)

SCHEDULE OL-1

OUTDOOR AREA LIGHTING SERVICE

GENERAL SPECIAL CONDITIONS

1. Service under this schedule will be supplied from existing secondary voltage, single-phase 120/240 volts. No new transformer capacity or primary distribution will be installed in order to provide this service.

2. The above lamp rates are applicable to utility-owned outdoor area lighting equipment mounted on existing utility-owned wood poles, or on customer-owned supports acceptable to the utility.

3. Utility-owned ornamental street lights, with the utility's consent, may be served under this schedule when a governmental street lighting customer terminates service thereto under Schedule LS-1 (A).

4. Customer desiring utility to install other than standard wood pole shall pay, in addition to the above monthly pole charge, a nonrefundable amount equal to the difference between the installed cost of a utility approved nonstandard pole and the installed cost of the standard wood pole.

5. A contract for a period of three years may be required for initial installation of facilities under this schedule, and will remain in effect from month to month thereafter subject to termination or cancellation under the terms stated therein.

6. Lamp maintenance will be done during regular working hours as soon as reasonably possible after customer has notified utility of service failure. Monthly bills will not be adjusted because of lamp outages.

7. Relocation of an outdoor area lighting installation at customer's request or because of governmental requirements will be made providing customer pays entire cost of such relocation.

8. Billing for an installation will be to only one account. Prorated billings to more than one account for a unit or a combination of units will not be made.

9. The utility's dusk to dawn, all-night service is based on a lighting period of approximately 4,165 hours per year.

(Continued)

SCHEDULE OL-1

OUTDOOR AREA LIGHTING SERVICE

GENERAL SPECIAL CONDITIONS

10. Service will not be furnished under this schedule where, in the opinion of the utility, the service may be objectionable to others or an undue hazard or expense would result. The installation of outdoor area lights hereunder is contingent upon the utility's obtaining satisfactory rights of way and necessary permits.

11. Billing. A customer's bill is first calculated according to the total rates and conditions listed above. The following adjustments are made depending on the option applicable to the customer:

    a. **UDC Bundled Service Customers** receive supply and delivery services solely from the Utility. The customer's bill is based on the Total Rates set forth above. The EECC component is determined by multiplying the EECC price for this schedule during the last month by the customer's total usage.

    b. **Direct Access (DA) and Community Choice Aggregation (CCA) Customers** purchase energy from a non-utility provider and continue to receive delivery services from the Utility. The bills for a DA and CCA Customer will be calculated as if they were a UDC Bundled Service Customer, then crediting the bill by the amount of the EECC component, as determined for a UDC Bundled Customer, and including the appropriate Cost Responsibility Surcharge (CRS), if applicable.

    Nothing in this service schedule prohibits a marketer or broker from negotiating with customers the method by which their customer will pay the CTC charge.

SCHEDULE OL-1

OUTDOOR AREA LIGHTING SERVICE

EECC SPECIAL CONDITIONS

1. Definitions: The definitions of principle terms used in this schedule are found either herein or in Rule 1, Definitions.

2. Service Restrictions: Service under this schedule is restricted to the entire load served by single meters. The electric load of a single meter may not be partitioned among services rendered under this schedule and services rendered by a non-utility party under Direct Access or Community Choice Aggregation (CCA).

3. Terms of Service: A customer receiving optional service under this Schedule may elect to change to another applicable rate schedule, but only after receiving service on this Schedule for at least 12 consecutive months, except as specified in EECC Special Condition 4. If a customer elects to discontinue service on this Schedule, the customer will not be permitted to return to this Schedule for a period of one year, unless returning to service from a Direct Access Provider or a Community Choice Aggregator (CCA) in less than one year. T

4. Early Termination: An eligible customer may elect to take commodity from a Direct Access provider or from a CCA during its Term of Service granted it has complied with all other applicable tariff requirements, including, but not limited to the terms and conditions set forth in Rules 25.1 and 27, respectively.

5. TOU Period Grandfathering: Pursuant to D.17-01-006 and D.17-10-018 TOU Period Grandfathering permits certain eligible behind-the-meter solar customers to continue billing under grandfathered TOU period definitions after new TOU Periods are implemented, for a specific period of time.

   TOU Period Grandfathering Eligible Customer Generator (Non-Residential): A non-residential customer with an on-site solar system, who has filed an initial interconnection application by January 31, 2017. The on-site solar system must be designed to offset at least 15% of the customer's current annual load. For Public Agency customers, defined here as public schools, colleges and universities; federal, state, county and city government agencies; municipal utilities; public water and/or sanitation agencies; and joint powers authorities, the non-residential account must have filed an initial interconnection application by December 31, 2017.

   TOU Period Grandfathering Term (Non-Residential): Upon SDG&E's implementation of updated TOU periods adopted in D.17-08-030, TOU Grandfathering Eligible Customer Generators will continue to be billed under prior existing TOU periods and resulting rates for the remainder of their applicable TOU Grandfathering Term, which begins upon issuance of a permission to operate customer's on-site solar system and continues for 10 years. In no event shall the duration of a customer's grandfathering term extend beyond July 31, 2027 (December 31, 2027 for schools). Upon expiration of a customer's TOU Period Grandfathering Term, the customer will be billed using his otherwise applicable TOU periods and associated rates beginning with the customer's next billing cycle.

6. PCIA Recovery in Bundled EECC Rates: Bundled Service customers on Schedule EECC rates include an amount to recover the above-market portion of SDG&E's generation portfolio. This above-market portion is referred to as the Power Charge Indifference Adjustment (PCIA) amount and is shown on Bundled Service customers' bills under the Breakout of Current Charges panel and embedded in Electric Generation charges.
