JACKSON ELECTRIC MEMBERSHIP CORPORATION

RIDER GP

GREEN POWER RIDER

APPLICABILITY:

This rider is applicable in connection with service for customers served under the Cooperative's residential and commercial rate schedules.

GREEN POWER ADDER:

The cost of Green Power is in addition to all costs as calculated in the tariffs referenced above.

Percentage use – Customers nominate the percentage of their monthly energy use to be provided by Green Power as 25%, 50%, 75%, or 100%. This percentage will be used to calculate the quantity of Green Power purchased each month based on the total energy usage for that month per location. The customer will be charged a premium of $0.01/kWh of Green Power purchased.

Customers may select the percentage of Green Power to purchase on an annual basis for a one-year, self-renewing term.

ELIGIBILITY:

A limited amount of Green Power is available for retail distribution. Customers will be added on a first come – first serve basis. The beginning and ending of the sign-up period is at the sole discretion of the Cooperative and purchased quantities are subject to availability.
