Schedule DA-RCSC Sheet 1
DIRECT ACCESS
REVENUE CYCLE SERVICES CREDITS

APPLICABILITY

Applicable to customers served under Direct Access or Community Choice Aggregation Service (CCA Service) who elect to receive metering and related services, and/or, for Direct Access customers only, billing services from an alternate service provider; and to Bundled Service Customers who change out their existing standard meter to a non-standard meter to receive interval data in order to make a direct access decision.* The metering and related services under this Schedule are not applicable to customers served under Direct Access or CCA Service who do not change out their meter to receive interval data and where SCE provides such customer's MDMA services. (N) | (N) (N)

TERRITORY

Within the entire territory served.

RATES

All charges and provisions of the customer's otherwise applicable rate schedules and/or contracts shall apply, except that the following applicable credit(s) will be applied to the customer's bill when the customer receives one or more of the following services.

METER OWNERSHIP CREDITS

Customer has a meter changed from a standard meter to a non-standard meter and the non-standard meter is no longer owned by SCE, except for meters obtained under Rule 2, Section J.

Rate Schedule	Per Meter Per Month
D	$0.11
D-CARE	$0.11
TOU-D-1	$2.03
TOU-D-2	$2.03
TOU-EV-1	$2.03
GS-1	$0.11
GS-2	$0.50
RTP-2	$8.26
TOU-EV-3	$2.03
TOU-EV-4	$2.03
TOU-GS-1	$2.03
TOU-GS-2	$2.03
TOU-GS-2-SOP	$2.03

* A standard meter is a meter that SCE would normally install for Bundled Service under the customer's otherwise applicable rate schedule. A non-standard meter is a meter, other than a standard meter, used to provide interval data or other load data used by a customer to facilitate a direct access decision.

Schedule DA-RCSC Sheet 7
DIRECT ACCESS
REVENUE CYCLE SERVICES CREDITS

SPECIAL CONDITIONS

1. Credits for metering and related services:

   a) One or more credits for each applicable rate schedule under this tariff may be applied to a customer's energy bill when a customer is served under Direct Access, CCA Service, or Bundled Service and has a standard meter changed to a non-standard meter; or a Direct Access or CCA Service customer who returns to Bundled Service and continues to own their non-standard meter. Unless otherwise specified, such credits will be applied only when customers whose standard meter change results in the installation of a non-standard meter. The Meter Ownership credits are not applicable when a customer adds metering facilities to their existing standard meter to receive hourly usage data.

   b) Customers who obtain non-standard meters under Rule 2, Section J, shall receive the applicable credit per meter under the Meter Ownership section of this Schedule.

2. Rate Schedules not listed in the RATES Section. SCE has other rate schedules applicable to electric service that are not listed in the RATES Section of this tariff. However, such rate schedules are applicable only when used in conjunction with a rate schedule listed in the RATES section. For example, if a customer is receiving electric service under Schedule D-SDP their concurrent rate schedule is Schedule D. Thus, they would receive a credit amount listed for Schedule D. However, in some cases depending on the customer's level of demand or if the customer elects a time-of-use rate schedule the concurrent rate schedule will vary. For example, customers on Schedule EDR-A, EDR-E, or EDR-R will have a concurrent rate schedule of either Schedule TOU-GS-3 or TOU-8, depending on the customers demand or if served under a time-of-use rate schedule. The credit amount for such customers would be for the credit amount listed for either Schedule TOU-GS-3 or TOU-8, which ever is applicable. Therefore, when a customer is provided service under more than one rate schedule, the customer shall receive only one credit for each of the revenue cycle services being provided which is based on the applicable rate schedule listed in the RATES Section of this tariff. (T)
