SCHEDULE 129D
BILL DISCOUNT RATE RIDER

(N)

APPLICABILITY: This rate is applicable to all Customers of the Company served under the Schedules noted below and on the following sheets and will be applied to all bills to Customers during a month when this schedule is effective.

PURPOSE: This schedule implements surcharges to collect the costs incurred by the Company in providing the rate discounts specified in Schedule 7BDR, including all administrative costs.

TRUE-UP: Following its initial filing for rates which will go into effect beginning October 1, 2023, the Company will submit annual filings on or prior to the fifteenth day of November, starting in 2024, for rates effective on January 1 of each following year. Each annual filing will be for rates to be effective from January 1 through December 31. Each year, the Company will estimate the amount of costs to be included in the Bill Discount Rate Rider as well as provides for a true-up of amounts from the prior rate period, plus any Company revenue-sensitive items such as taxes. Amounts to include in each year's true-up will be the amounts shown below for the prior rate period.

a. Actual bill discounts provided versus the amount set in rates;
b. Actual administrative costs versus the amount set in rates; and
c. Revenue set in rates versus actual revenue recovered during the prior period.

If a true-up calculation results in a positive number, the amount will be an addition to the amount to be otherwise collected under Schedule 129D during the current year. If the result is a negative number, the resulting amount will be a reduction to the amount to be otherwise collected under Schedule 129D during the current year.
