Schedule D-CARE Sheet 1
CALIFORNIA ALTERNATE RATES FOR ENERGY
DOMESTIC SERVICE

APPLICABILITY

Applicable to domestic service to California Alternate Rates for Energy (CARE) households residing in a permanent Single-Family Accommodation or Multifamily Accommodation where the customer meets all the Special Conditions of this Schedule. Customers enrolled in the CARE program are not eligible for the Family Electric Rate Assistance (FERA) program.

Pursuant to Special Condition 11 herein, customers receiving service under this Schedule are eligible to receive the California Climate Credit as shown in the Rates section below.

TERRITORY

Within the entire territory served.

RATES

The applicable charges set forth in Schedules D or TOU-D shall apply to Customers served under this Schedule. (T)

CARE Discount:

A 32.5 percent discount is applied to a CARE Customer's bill prior to the application of the Public Utilities Commission Reimbursement Fee (PUCRF) and any applicable user fees, taxes, and late payment charges. CARE Customers are required to pay the PUCRF and any applicable user fees, taxes, and late payment charges in full. In addition, CARE Customers are exempt from paying the CARE Surcharge of $0.209 per meter per day , the Wildfire Fund Non-Bypassable Charge of $0.00591 per kWh, and the Fixed Recovery Charge of $0.00619 per kWh. CARE Customers are exempt from the Base Services Charge Surcharge of $0.069 per meter per day and are provided a Base Services Charge Discount of $(0.168) per meter per day to reduce their Base Services Charge.

Schedule D-CARE Sheet 2
California Alternate Rates for Energy Domestic Service

SPECIAL CONDITIONS

1. For the above rate components, the summer season shall commence at 12:00 a.m. on June 1 and continue until 12:00 a.m. on October 1 of each year. The winter season shall commence at 12:00 a.m. on October 1 of each year and continue until 12:00 a.m. on June 1 of the following year.

2. CARE Household: A CARE Household is a household where the total gross income from all sources is less than shown on the table below based on the number of persons in the household. Total gross income shall include income from all sources, both taxable and nontaxable. Persons who are claimed as a dependent on another person's income tax return are not eligible. These income limits are effective as of June 1, 2026. (T)

No. of Persons In Household	Total Gross Annual Income	
1-2	$43,280	(I)
3	$54,640	|
4	$66,000	|
5	$77,360	|
6	$88,720	|
7	$100,080	|
8	$111,440	(I)

For each additional person residing in the household, add $11,360 annually. (I)

3. Group Living Facility: A Group Living Facility, as defined in the Preliminary Statement, Part O, Section 3.d., which is receiving service under a Domestic Rate Schedule may qualify either by total gross income as defined in Schedule D-CARE Special Condition 3 or by the eligibility standard defined in Preliminary Statement, Part O, Sections 3.d. and 3.e.

Schedule D-CARE Sheet 3
CALIFORNIA ALTERNATE RATES FOR ENERGY
DOMESTIC SERVICE

SPECIAL CONDITIONS (Continued)

4. Application and Eligibility Declaration: An application and eligibility declaration on a form authorized by the Commission is required for each request for service under this Schedule. Renewal of a customer's eligibility declaration will be required every two years, but verification may be required on an annual basis. Customers identified as having a high probability of being CARE-eligible will be required to recertify every four years or longer. Customers on a Fixed Income will be placed on a six-year or longer renewal cycle provided they have completed their initial income verification. Customers are only eligible to receive service under this rate at one residential location at any one time and the rate applies only to a customer's permanent primary residence. This Schedule is not applicable where, in the opinion of SCE, either the dwelling or occupancy is transient. (T)

5. Commencement of Rate: Eligible customers shall be billed on this Schedule commencing no later than one billing period after receipt and approval of the customer's application by SCE. (T)

6. Power Charge Indifference Adjustment (PCIA) Recovery in Bundled Generation Rates: Bundled Service Customer Generation charges include an amount to recover the above-market portion of SCE's generation portfolio. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources. This above-market portion is referred to as the Power Charge Indifference Adjustment (PCIA) amount and is shown on Bundled Service Customers' bills under the description of the Generation charge. (T)

7. Verification: Information provided by the applicant is subject to verification by SCE. Refusal or failure of a customer to provide documentation of eligibility acceptable to SCE, upon request by SCE, shall result in removal from this Schedule. Applicants with electric usage above 400 percent of their baseline allowance may be asked to provide proof of qualifying household income, agree to participate in the Energy Saving Assistance program, and keep their usage below 600 percent of baseline allowance to remain eligible for this Schedule. (L)(T)

8. Notice From Customer: It is the customer's responsibility to notify SCE if there is a change in their eligibility status. (T)(L)

(Continued)

Schedule D-CARE Sheet 4
CALIFORNIA ALTERNATE RATES FOR ENERGY
DOMESTIC SERVICE

SPECIAL CONDITIONS (Continued)

9. Rebilling: Customers may be rebilled for periods of ineligibility under the applicable rate schedule.

10. This Schedule may only be combined with Schedules D-SDP, DMS-1, DMS-2, DMS-3, DS, TOU-D, or Option CPP of an applicable TOU rate schedule. This Schedule may also be combined with Schedule DM when serving eligible Group Living Facilities, Agricultural Employee Housing, and Migrant Farm Worker Housing. (T)

11. Billing Calculation: A customer's bill is calculated according to the rates and conditions above.

The residential Base Services Charge is a fixed daily charge designed to cover the costs connecting each Customer to the electric grid and providing state programs to assist income-qualified Customers. Customers enrolled in CARE or living in Deed Restricted Affordable Housing (DRAH) are provided a discount to reduce their Base Services Charge. DRAH will be identified by the California Housing Partnership database. For properties with less than 80 percent of units identified as DRAH, Customers must contact SCE or visit www.sce.com and self-attest to living in a DRAH to qualify for the DRAH discount to reduce their Base Services Charge. DRAH Customers are exempt from the Base Services Charge Surcharge of $0.069 per meter per day and are provided a Base Services Charge Discount of $(0.327) per meter per day to reduce the Base Services Charge.

The charges listed in the RATES section are calculated by multiplying the Total Delivery Service rates and the Generation rates, when applicable, by the billing determinants (e.g., per kilowatt [kW], kilowatthour [kWh], etc.). The Energy Charge varies each month based on how much electricity a Customer uses.

The DWR Energy Credit provided to Bundled Service Customers is determined by multiplying the DWR Energy Credit rate component by the customer's total kWhs.

a. Bundled Service Customers receive Delivery Service and Generation service from SCE. The customer's bill is the sum of the charges for Delivery Service and Generation service determined as described in this Special Condition, and subject to applicable discounts or adjustments provided under SCE's tariff schedules.

b. Direct Access (DA) Customers receive Delivery Service from SCE and purchase energy from an Energy Service Provider. The customer's bill is the sum of the charges for Delivery Service determined as described in this Special Condition except that the DWRBC rate component is subtracted from the total Delivery Service rates before the billing determinants are multiplied by such resulting total rates; plus the applicable charges as shown in Schedule DA-CRS and subject to applicable discounts or adjustments provided under SCE's tariff schedules.

c. Community Choice Aggregator (CCA) Service Customers receive Delivery Service from SCE and purchase energy from their Community Choice Aggregator (CCA). SCE will read the meters and present the bill for both Delivery Service and Generation to the CCA Service Customer. The customer's bill is the sum of the charges for Delivery Service as displayed in this Rate Schedule and Generation charges determined by the CCA plus the applicable charges as shown in Schedule CCA-CRS, and subject to applicable discounts or adjustments provided under SCE's tariff schedules.

DOMESTIC SERVICE

12. Residential California Climate Credit: A credit from the State of California to fight climate change. The credit is applied after the calculation of city and county utility users' taxes on customers' utility bills and prior to the application of franchise fees on an equal basis, per household, to the billing statements of customers receiving service under this schedule at the time the California Climate Credit is disbursed. Any California Climate Credit not consumed in the billing period in which the credit is applied will roll over to each subsequent billing period until the credit is fully consumed. (T) (T) (T)

13. Arrearage Management Plan (AMP): AMP is a debt forgiveness payment plan option for eligible residential Customers. An eligible Customer is a Customer who has been an SCE Customer for a minimum of six months, enrolled in the CARE or FERA program, made at least one on-time payment,[1] and has a past due bill (i.e., arrearage) balance of $500 or greater which is 90 days or older. Once enrolled in the AMP, SCE shall forgive 1/12 of an eligible residential Customer's arrearage after each on-time payment. After 12 on-time payments, SCE shall forgive the remaining arrearage debt up to a maximum of $8,000 per instance of enrollment. After successfully completing the AMP plan, a customer can re-enroll after a 12-month waiting period beginning the first month after the AMP was successfully completed. A Customer can miss up to two non-sequential payments if the Customer makes up the payment on the next billing due date with an on-time payment of both the current and missed payments. This can occur twice during the 12 months a Customer is on AMP. On the third instance, the Customer will be removed from the AMP. If a Customer is removed from AMP before reaching 12 on-time payments, there will be no impact on the 1/12th debt forgiven for previous on-time payments. Customers who are removed from the AMP program may re-enroll after a 12-month waiting period, assuming they meet the eligibility requirements, beginning the first month after the eligible Customer was removed. Any Customers who are removed from CARE/FERA while on AMP will be given the opportunity to complete their AMP but will be unable to re-enroll in the future unless they meet the eligibility requirements. Low-Income Home Energy Assistance Program assistance will be applied to the monthly bills, not the arrearage. When extenuating circumstances occur that are the result of SCE operations, exceptions to these AMP rules are permitted as follows: (1) a Customer removed from AMP may re-enroll in AMP prior to the 12-month waiting period; (2) an AMP Customer who receives and pays on a bill consisting of multiple months' charges will receive 1/12 arrearage forgiveness for each month's charges that are ultimately paid on time; (3) for an AMP Customer who receives a delayed bill and does not entirely pay the bill consisting of multiple months' charges, the unpaid amounts associated with prior months' charges will be due and eligible for a payment arrangement when the Customer exits AMP; (4) any AMP forgiveness that was or will be applied between an AMP Customer's enrollment in an NEM tariff and the Customer's removal from AMP will remain on the Customer account.

1. An on-time payment is defined as payment that equals or exceeds the current monthly bill within 19 days of the bill date.

CALIFORNIA ALTERNATE RATES FOR ENERGY
DOMESTIC SERVICE

14. San Joaquin Valley Disadvantaged Communities Pilot Projects (SJV Pilot) Bill Protection Discount: In accordance with Decision 18-12-015 and Resolution E-5034, Customers participating in the SJV Pilot and entering into the associated service agreement will receive a 10-year Bill Protection Discount beginning after the first electric appliance is installed in a participant's home and one full billing cycle has concluded. The monthly Bill Protection Discount will be provided as follows: (T)

Years 1-5 of SJV Pilot participation: 20 percent discount
Years 6-10 of SJV Pilot participation: 10 percent or 20 percent discount

SCE will evaluate Pilot participants' total energy costs savings beginning three and half years after the first SJV Pilot participant receives a Bill Protection Discount. This evaluation will analyze total energy costs for all SJV Pilot participants who have received at least 24 consecutive months of electricity bills with a Bill Protection Discount, and it will be based on collected and modeled propane data and actual participant's electricity costs pre-Pilot and post-Pilot;

a. If the evaluation finds that all participants in the evaluation study, except quantitatively-measurable statistical outliers, experience energy costs savings (i.e., total energy costs have not increased), SCE shall reduce the monthly electricity bill discount to a 10 percent discount for an additional five years; or

b. If the evaluation finds that any participants in the evaluation study, except quantitatively-measurable statistical outliers, experience an energy cost increase, SCE shall continue to provide a 20 percent discount for an additional five years.

If the customer service agreement changes during the 10-year bill protection period (i.e., change of property ownership, change in occupancy) the Bill Protection Discount and Transitional Community Solar Discount shall be terminated. A new customer moving into an electrified house shall not receive the SJV Pilot Bill Protection Discount or Transitional Community Solar Discount.

15. Transitional Community Solar Discount: SJV Pilot participants eligible for the Community Solar-Green Tariff (CSGT) or the Disadvantaged Communities-Green Tariff (DAC-GT) program shall be provided a 20 percent Transitional Community Solar monthly bill credit for the 10-year bill protection period if neither program is available when the SJV Pilot participant receives the first Bill Protection Discount. If the DAC-GT or CSGT programs are available, yet a customer cannot participate due to subscription or locational limitations, the 20 percent Transitional Community Solar Discount will still apply. The Transitional Community Solar discount will not apply to customers who have onsite solar through the Single-Family Affordable Solar Homes (SASH) program, the Disadvantaged Communities SASH (DAC-SASH) program, Net Energy Metering (NEM), or through another program. (T)
