Schedule DWL Sheet 1
RESIDENTIAL WALKWAY LIGHTING

APPLICABILITY

Applicable to the lighting of walkways and similar common-interest areas of condominium, cooperative, or other residential projects where each single-family accommodation is separately metered. This Schedule is closed to new installations as of December 10, 1976. Customers served on Option A of this Schedule will have rates adjusted over a three-year period with customers being migrated to Schedule OL-1 on the next scheduled read date after October 1, 2024. Customers served on Option B or C of this Schedule will be transferred to Schedule LS-2 Option B on their next scheduled read date after October 1, 2022.

TERRITORY

Within the entire territory served.

* The kilowatthours used to determine the Energy Charge for the lamp types and sizes served under the Schedule are shown in the Special Conditions Section, below.

** The Minimum Charge is applicable when the Delivery Service Energy Charge, plus the applicable Basic Charge is less than the Minimum Charge.

*** The ongoing Competition Transition Charge (CTC) of $0.00013 per kWh is recovered in the URG component of Generation.

1 Trans = Transmission and the Transmission Owners Tariff Charge Adjustments (TOTCA) which are FERC approved. The TOTCA represents the Transmission Revenue Balancing Account Adjustment (TRBAA) of $(0.00222) per kWh, Reliability Services Balancing Account Adjustment (RSBAA) of $0.00008 per kWh, and Transmission Access Charge Balancing Account Adjustment (TACBAA) of $0.00161 per kWh. (R)

2 Distrbtn = Distribution

3 NSGC = New System Generation Charge

4 NDC = Nuclear Decommissioning Charge

5 PPPC = Public Purpose Programs Charge (includes Diablo Canyon Power Plant charge and California Alternate Rates for Energy Surcharge where applicable.)

6 WFC = Wildfire Fund Non-Bypassable Charge. The Wildfire Fund Non-Bypassable Charge supports the California Wildfire Fund and is not applicable to exempt Customers pursuant to D.19-10-056.

7 PUCRF = The PUC Reimbursement Fee is described in Schedule RF-E.

8 Total = Total Delivery Service rates are applicable to Bundled Service, Direct Access (DA) and Community Choice Aggregation Service (CCA Service) Customers, except DA and CCA Service Customers are not subject to the DWRBC rate component of this Schedule but instead pay the DWRBC as provided by Schedule DA-CRS or Schedule CCA-CRS.

9 Generation = The Generation rates are applicable only to Bundled Service Customers. See Special Condition below for PCIA recovery.

10 DWREC = Department of Water Resources (DWR) Energy Credit – For more information on the DWR Energy Credit, see the Billing Calculation Special Condition of this Schedule.

11 DWRA = A refund from the California Department of Water Resources (DWR) relating to the purchase of power during the 2000-2001 energy crisis.

12 The Modified Cost Allocation Mechanism (MCAM) charge recovers the net cost associated with system reliability procurement ordered by the CPUC that SCE has procured on behalf of customers whose generation services are provided by certain Electric Service Providers or Community Choice Aggregators.

Schedule DWL
RESIDENTIAL WALKWAY LIGHTING

SPECIAL CONDITIONS (T)

1. Kilowatthours for Lamp Type and Size: The kilowatthours for the lamp type and size served under this Schedule used to determine the Energy Charge are shown below: (L) (D)(C) (C)

	KWh Per Lamp Per Month*
Rate A SCE-Owned Walkway Lighting Facilities:	
High Pressure Sodium Vapor Lamp	
50 watt	20.010
70 watt	28.635
100 watt	40.365
150 watt	66.585
Metal Halide Lamp	
100 watt	44.505
175 watt	74.175
Mercury Vapor Lamp	
75 watt	32.341
Rate B Customer-Owned Walkway Lighting Facilities:	
High Pressure Sodium Vapor Lamp	
50 watt	20.010
70 watt	28.635
100 watt	40.365
150 watt	66.585
Metal Halide Lamp	
100 watt	44.505
175 watt	74.175
Mercury Vapor Lamp	(D)
75 watt	32.341

* When an account has more than one lamp, the total kWh will be the kWh per month lamp rating to three decimal places multiplied by the number of lamps. (L)

* When an account has more than one lamp, the total kWh will be the kWh per month lamp rating to three decimal places multiplied by the number of lamps.
** Lamp Wattage is based on the total wattage consumption of the lamp and driver.
*** The Mid-Point Range of the Lamp Watts including driver, is established by deducting 2.5 Watts from the highest wattage of the corresponding range in the “Lamp Watts Including Driver” column.
**** The energy use calculation for All Night Service is (Mid-Point Range watts) x (4,140 hours/12 months/1000).

Schedule DWL Sheet 6 (T)
RESIDENTIAL WALKWAY LIGHTING

SPECIAL CONDITIONS (Continued)

2. Facilities:

Under Rate A, SCE-Owned Walkway Lighting Facilities, the facilities furnished and installed by SCE include, but are not limited to, the luminaires, electroliers, and underground service connections, but exclude the trenching and backfilling. Trenching and backfilling for the service connections, shall be in accordance with the specifications of SCE, and furnished or paid for by the customer. Such walkway lighting facilities shall be owned, operated, and maintained by SCE.

Under Rate B, Customer-Owned Walkway Lighting Facilities, the customer owns, operates and maintains the electrolier, lamp and luminaire, which include, the ballast, reflector and refractor. Such facilities and systems were originally furnished and installed by SCE and later acquired by the customer. Replacement is limited to the same or similar equipment and subject to approval of SCE. Additional lamps may not be added to an existing installation and any relocation is subject to approval of SCE. SCE will furnish the photoelectric control and service connections including, but not limited to, the service conductors within the customer-owned electrolier and any connecting conductor between electroliers. Said SCE-furnished facilities shall be owned, operated, and maintained by SCE.

3. Replacement of SCE-owned Lamps: SCE will replace its lamps as soon as practicable after notification by the customer of lamp outage.

4. Optional Relamp Service, Rate C: When the customer elects this Optional Relamp Service for his Customer-owned walkway lighting facilities, SCE will, within a reasonable time and upon notification by the customer of a lamp failure, furnish and install a replacement lamp of similar type and wattage. At the time of relamping, SCE will clean the refractor, or install replacement refractors furnished by the customer, as required.

5. Luminaire Locations: Luminaires and electroliers are installed at locations mutually agreed upon by the original applicant and SCE where the underground service connections were made at transformer pads, service pedestals, or other suitable points to a preassembled cable-in-duct underground distribution system.

(Continued)

Schedule DWL Sheet 7 (T)
RESIDENTIAL WALKWAY LIGHTING

SPECIAL CONDITIONS (Continued)

6. Hours of Service: For both SCE-owned and Customer-Owned Walkway Lighting Facilities, a photoelectric control will be used to provide all night lighting service of approximately 4,140 hours per year under SCE's standard all night operating schedule. The photoelectric control will at all times remain the property of SCE.

7. Contract: A contract will be required for walkway lighting service under this Schedule.

8. Maintenance: SCE shall exercise reasonable care and diligence in maintaining walkway lighting facilities owned by SCE. Where SCE experiences, or expects to experience, maintenance costs exceeding its normal maintenance expense resulting from, but not limited to, vandalism, SCE may require the customer to pay the excess maintenance expense.

   Except for the Optional Relamp Service offered under Rate C, SCE will provide no maintenance for Customer-owned walkway lighting facilities.

9. SCE reserves the right to refuse or discontinue service to any walkway lighting facilities which, in its opinion, are unsafe or a public nuisance.

10. Modifications or Relocations: Where walkway lighting facilities are ordered, modified, and/or relocated by a customer, the customer shall pay to SCE, in advance of such modification and/or relocation, a nonrefundable amount equal to the estimated cost of such modification and/or relocation. This includes facilities that now serve other than street light load.

(Continued)

Schedule DWL Sheet 8
RESIDENTIAL WALKWAY LIGHTING - METERED SERVICE

SPECIAL CONDITIONS (Continued)

11. Billing Calculation: A customer's bill is calculated according to the rates and conditions above.

The charges listed in the RATES section are calculated by multiplying the Total Delivery Service rates and the Generation rates, when applicable, by the billing determinants (e.g., per kilowatt [kW], kilowatthour [kWh], etc.).

As of January 1, 2012, all generation supplied to Bundled Service Customers is provided by SCE. The DWR Energy Credit provided to Bundled Service Customers is determined by multiplying the DWR Energy Credit rate component by the customer's total kWhs.

a. Bundled Service Customers receive Delivery Service and Generation service from SCE. The customer's bill is the sum of the charges for Delivery Service and Generation service determined, as described in this Special Condition, and subject to applicable discounts or adjustments provided under SCE's tariff schedules.

b. Direct Access Customers receive Delivery Service from SCE and purchase energy from an Energy Service Provider. The customer's bill is the sum of the charges for Delivery Service determined as described in this Special Condition except that the DWRBC rate component is subtracted from the Total Delivery Service rates before the billing determinants are multiplied by such resulting Total rates; plus the applicable charges as shown in Schedule DA-CRS and subject to applicable discounts or adjustments provided under SCE's tariff schedules.

c. CCA Service Customers receive Delivery Service from SCE and purchase energy from their Community Choice Aggregator (CCA). SCE will read the meters and present the bill for both Delivery and Generation Services to the CCA Service Customer. The customer's bill is the sum of the charges for Delivery Service as displayed in this Rate Schedule and Generation charges determined by the CCA plus the applicable charges as shown in Schedule CCA-CRS, and subject to applicable discounts or adjustments provided under SCE's tariff schedules.

12. PCIA Recovery in Bundled Generation Rates: Bundled Service Customer Generation charges include an amount to recover the above-market portion of SCE's generation portfolio. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources. This above-market portion is referred to as the Power Charge Indifference Adjustment (PCIA) amount and is shown on Bundled Service Customers' bills under the description of the Generation charge.

13. Fixed Recovery Charge. SCE has been permitted to issue bonds that enable it to recover more quickly certain costs related to preventing and mitigating catastrophic wildfires, while reducing the total cost to its customers. The Fixed Recovery Charge (FRC) has been approved by the CPUC to repay those bonds. The right to recover the FRC has been transferred to a separate entity (called the Special Purpose Entity) that issued the bonds and recovery does not belong to SCE. SCE is collecting the FRC on behalf of the Special Purpose Entity. (N)
