Schedule EDR-E Sheet 1
Economic Development Rate-Expansion

APPLICABILITY

Applicable to existing non-residential, non-governmental Customers who increase load by at least 150 kilowatts (kW) over their current Maximum Demand, as established in their EDR-E Agreement, either individually, or in the aggregate across accounts located at the same physical facility, except for Small Customer Accounts, as defined herein, with loads that are below 150 kW. Such increase must represent load that is new to California. This Schedule is intended to expand load in California relative to out-of-state options, and is not intended to attract Customers from one service area to another within the state, or to attract out-of-state Customers to one in-state electric service area or provider over another. Customers who are planning to expand their load at their current site or who are planning to relocate and expand their load at a new site must demonstrate to the satisfaction of SCE that the expanded load subject to this Schedule is new to California. The Customer must sign an affidavit attesting to the fact that "but for" this discount, either on its own or in combination with a package of incentives made available to the Customer from other sources, the Customer would not have expanded its load within the State of California. This Schedule is not applicable to state and local government Customers or residential Customers.

EDR discounts are subject to a combined program cap of 200 MW and Small Customer Accounts shall number no more than twenty (20) across all EDR contract types (i.e., Schedules EDR-A, EDR-R, and EDR-E established March 1, 2019).

The Customer must establish an average monthly Base Period Usage determined from historical energy and demand (if served on a rate with demand charges). Load eligible for discount under this Schedule is the difference between the monthly metered energy and demand, from the Base Period Usage energy and demand. An existing Customer who otherwise qualifies for this option may move all load to a new site in SCE's territory and still take service under this option for the load that is new to California. To do so, the Customer must demonstrate that the operations at the new site are substantially similar to those at the old site, and establish a Base Period Usage at the new site using the load and usage information from the old site.

TERRITORY

Within the entire territory served.

Economic Development Rate-Expansion

RATES

Unless provided herein, or in the Economic Development Rate-Expansion Agreement, all charges and provisions of the Customer's Otherwise Applicable Tariff (OAT) shall apply, except that the Customer's total bill shall be subject to discount as follows:

12 percent off the Customer's bill calculated based on the rate components comprising its OAT (excluding the generation service cost component unless that service is provided by SCE) for purchases of electricity (demand and energy) over the five-year term of the EDR-E Agreement.

SPECIAL CONDITIONS

1. Otherwise Applicable Tariff: The Customer's regularly filed rate schedule under which service is rendered, including riders.

2. Agreement: The Customer must sign the Economic Development Rate-Expansion (EDR-E) Agreement (Form 14-983) in order to take service under this Schedule.

3. Small Customer Account: A Customer's individual Service Account with load below 150 kW.

4. Start Date: The start date of the discount period shall commence within 24 months from the date of execution of the Agreement and Affidavit, or 36 months to the extent SCE must build infrastructure to serve the EDR-A Customer, and shall be designated by the Customer within the EDR-E Agreement.

SPECIAL CONDITIONS (Continued)

5. Metering: Separate electric metering for the Customer's Qualifying Incremental Load, as defined in Form 14-983, may be required if, in SCE's sole opinion, it is necessary to provide service under this schedule. The Customer will be responsible for any costs associated with providing separate electric metering.

6. Conservation: In order to be eligible for this Schedule, a Customer, with the exception of a Small Customer Account, must allow SCE to conduct an energy audit for the purpose of making cost-effective energy efficiency and demand side management options available to the Customers.

7. SCE will consult with the California Governor's Office of Business and Economic Development (GO- Biz), or its successor entity, under the supervision of the Governor's Office Of Business and Economic Development, in order to determine qualified Customers, with the exception of a Small Customer Account. Approval by GO-Biz is necessary, but not sufficient, for determining eligibility. SCE reserves the right for final review and eligibility determination, and service under this Schedule shall be offered at the discretion of SCE.

8. All Customers must agree to maintain a Minimum Expanded Load, as defined in Form 14-983, for five years from the date service is first rendered as set forth in the Economic Development Rate-Expansion Agreement.

9. Base Period Usage: Base Period Usage shall be established and agreed to in the Economic Development Rate-Expansion Agreement. If time-of-use data is not available, the Customer's Base Period Usage shall be established using available data, subject to subsequent adjustment based on Customer's recorded demand and energy.

10. SCE is under a compliance mandate from the California Public Utilities Commission to provide to the Commission, under seal, (a) a list of the names and locations of its EDR participants, (b) their SIC Codes, (c) the total amount of EDR discount provided to the Customer, (d) a listing of jobs retained or created during the reporting period that are attributable to the named EDR participant's involvement in the EDR program, with the exception of Small Customer Accounts after the first time those Customers appear in an annual EDR report; and (e) the amount of the wage and benefits attributable during the reporting period to each category of job retained or created by the named EDR participant's involvement in the EDR program, with the exception of Small Customer Accounts after the first time those Customers appear in an annual EDR report. To remain eligible for service under this Schedule, Customer must provide SCE with the above-referenced information. SCE shall use reasonable means to protect this data from public disclosure by redacting or aggregating it in any public filings.
