Schedule OL-1 Sheet 1
OUTDOOR AREA LIGHTING SERVICE - UNMETERED SERVICE

APPLICABILITY

Applicable to outdoor area lighting service, other than street and highway lighting service, supplied from overhead lines where SCE owns and maintains the area lighting equipment. Service will be furnished only where the installation is considered by SCE to be of a permanent and established character.

Lamp Type - New Installations: Beginning November 1, 2018, the LED Lamp Type is the standard luminaire offering for all new Standard Installations. Prior Lamp Type offerings - High Pressure Sodium Vapor, Low Pressure Sodium Vapor, and Metal Halide are closed to new installations.

Distribution Pole-Mounted Discount:

Customers meeting the eligibility criteria outlined in Special Condition 10, may elect to receive a Distribution Pole-Mounted Discount for eligible streetlighting facilities.

TERRITORY

Within the entire territory served.

Schedule OL-1 Sheet 2
OUTDOOR AREA LIGHTING SERVICE - UNMETERED SERVICE

* The kilowatt hours used to determine the Energy Charge for the lamp types and sizes served under this Schedule are shown in the Special Conditions section, below.
** Closed to new installations as of November 1, 2018 for HPSV, LPSV, and MH lamp types.
*** The ongoing Competition Transition Charge (CTC) of $0.00013 per kWh is recovered in the UG component of Generation.
1 Trans = Transmission and the Transmission Owners Tariff Charge Adjustments (TOTCA) which are FERC approved. The TOTCA represents the Transmission Revenue Balancing Account Adjustment (TRBAA) of $(0.00222) per kWh, Reliability Services Balancing Account Adjustment (RSBAA) of $0.00008 per kWh, and Transmission Access Charge Balancing Account Adjustment (TACBAA) of $0.00161 per kWh. (R)
2 Distrbtn = Distribution
3 NSGC = New System Generation Charge
4 NDC = Nuclear Decommissioning Charge
5 PPPC = Public Purpose Programs Charge (includes Diablo Canyon Power Plant Charge and California Alternate Rates for Energy Surcharge where applicable.)
6 WFC = Wildfire Fund Non-Bypassable Charge. The Wildfire Fund Non-Bypassable Charge supports the California Wildfire Fund and is not applicable to exempt Customers pursuant to D.19-10-056.
7 PUCRF = The PUC Reimbursement Fee is described in Schedule RF-E.
8 Total = Total Delivery Service rates are applicable to Bundled Service, Direct Access (DA) and Community Choice Aggregation Service (CCA Service) Customers, except DA and CCA Service Customers are not subject to the DWRBC rate component of this Schedule but instead pay the DWRBC as provided by Schedule DA-CRS or Schedule CCA-CRS.
9 Generation = The Generation rates are applicable only to Bundled Service Customers. See Special Condition below for PCIA recovery.
10 DWREC = Department of Water Resources (DWR) Energy Credit – For more information on the DWR Energy Credit, see the Billing Calculation Special Condition of this Schedule.
11 DWRA = A refund from the California Department of Water Resources (DWR) relating to the purchase of power during the 2000-2001 energy crisis.
12 The Modified Cost Allocation Mechanism (MCAM) charge recovers the net cost associated with system reliability procurement ordered by the CPUC that SCE has procured on behalf of customers whose generation services are provided by certain Electric Service Providers or Community Choice Aggregators.

SPECIAL CONDITIONS

1. Kilowatthours for lamp Type and Size: The kilowatthours for the lamp types and sizes served under this Schedule used to determine the Energy Charge are shown below:

*** Lamp Wattage is based on the total wattage consumption of the lamp and driver.

**** The Mid-Point Range of the Lamp Watts including driver, is established by deducting 2.5 Watts from the highest wattage of the corresponding range in the “Lamp Watts Including Driver” column.

***** The energy use calculation for All Night Service is (Mid-Point Range watts) x (4,140 hours/12 months/1000). The same calculation is used for Midnight service except that the hours of service is replaced with 2,170 hours.

(Continued)

Schedule OL-1 Sheet 6
OUTDOOR AREA LIGHTING SERVICE-UNMETERED SERVICE

SPECIAL CONDITIONS (Continued)

2. Service and Facilities Furnished: Service under this Schedule will be in accordance with SCE's specifications as to equipment, installation, maintenance, and operation. Facilities furnished will be SCE-owned luminaires mounted on existing SCE-owned wood poles as standard equipment. Not more than one new wood pole will be installed, and no more than one span of conductor per luminaire will be installed. For each additional new wood pole installed, the customer is billed the amounts shown in the RATES section, above. No new transformer capacity or primary distribution will be installed in order to provide this service. Service will be supplied from SCE's existing 120/240 volt overhead lines or, at the option of SCE, at 240/480 or 277/480 volts, three wire, single phase.

3. Hours of Service: Area all night lighting service will be furnished from dusk to dawn, approximately 4,140 hours per year. Midnight Service will be approximately 2,170 hours of service per year.

4. Replacement of Lamps: SCE will replace its lamps as soon as practicable after notification by the customer of lamp outage.

5. Contract: A written contract for a term of one year will be required by SCE when service is first established under this Schedule.

6. Restrictions:

   a. Installations will not be made at locations where, in the opinion of SCE, there is an unreasonable exposure to accidental or malicious damage.

   b. Installation will not be made at locations where, in the opinion of SCE, the lighting service may be objectionable to others. SCE reserves the right to discontinue service if, in its opinion, any installed equipment becomes objectionable to others.

7. Removal or Modification of Equipment: Where area lighting service and facilities were ordered removed or modified by a customer and such service and facilities, or their equivalent, are ordered reinstalled within 36 months from the date of the order to remove or to modify, the customer shall pay to SCE in advance of reinstallation a nonrefundable amount equal to the cost of removal or modifications of the prior facilities and the estimated cost of such reinstallation. Facilities removed or installed remain the sole property of SCE.

8. Other Than All Night Service: Where the customer requests the installation and/or removal of equipment in order to obtain Midnight Service, and such request is acceptable to SCE, SCE will comply with such request provided the customer first agrees to advance the estimated cost installed of any additional equipment required and/or the removal cost of any equipment currently installed. Such advances will not be refunded. Facilities installed in connection with such requests become and remain the sole property of SCE.

(Continued)

Schedule OL-1 Sheet 7
OUTDOOR AREA LIGHTING SERVICE-UNMETERED SERVICE

SPECIAL CONDITIONS (Continued)

9. Billing Calculation: A Customer's bill is calculated according to the rates and conditions above.

The charges listed in the RATES section are calculated by multiplying the Total Delivery Service rates and the Generation rates, when applicable, by the billing determinants (e.g., per kilowatt [kW], kilowatthour [kWh], etc.).

As of January 1, 2012, all generation supplied to Bundled Service Customers is provided by SCE. The DWR Energy Credit provided to Bundled Service Customers is determined by multiplying the DWR Energy Credit rate component by the Customer's total kWhs.

a. Bundled Service Customers receive Delivery Service and Generation service from SCE. The Customer's bill is the sum of the charges for Delivery Service and Generation service determined, as described in this Special Condition, and subject to applicable discounts or adjustments provided under SCE's tariff schedules.

b. Direct Access Customers receive Delivery Service from SCE and purchase energy from an Energy Service Provider. The Customer's bill is the sum of the charges for Delivery Service determined as described in this Special Condition except that the DWRBC rate component is subtracted from the Total Delivery Service rates before the billing determinants are multiplied by such resulting Total rates; plus the applicable charges as shown in Schedule DA-CRS and subject to applicable discounts or adjustments provided under SCE's tariff schedules.

c. CCA Service Customers receive Delivery Service from SCE and purchase energy from their Community Choice Aggregator (CCA). SCE will read the meters and present the bill for both Delivery and Generation Services to the CCA Service Customer. The Customer's bill is the sum of the charges for Delivery Service as displayed in this Rate Schedule and Generation charges determined by the CCA plus the applicable charges as shown in Schedule CCA-CRS, and subject to applicable discounts or adjustments provided under SCE's tariff schedules.

10. Distribution Pole-Mounted Discount:

Customers taking service under this Schedule with outdoor lighting fixtures mounted on a distribution pole are eligible for and may elect to receive the Distribution Pole-Mounted Discount as shown in the RATES section above. Customers are eligible to receive a Distribution Pole-Mounted Discount upon SCE's inventory of the outdoor lighting fixture(s). This discount will be applied on the Customers next scheduled billing date after a Customer elects this Discount, and qualifies for service herein.

11. PCIA Recovery in Bundled Generation Rates: Bundled Service Customer Generation charges include an amount to recover the above-market portion of SCE's generation portfolio. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources. This above-market portion is referred to as the Power Charge Indifference Adjustment (PCIA) amount and is shown on Bundled Service Customers' bills under the description of the Generation charge.

(Continued)

Schedule OL-1 Sheet 8
OUTDOOR AREA LIGHTING SERVICE-UNMETERED SERVICE

SPECIAL CONDITIONS (Continued)

12. Fixed Recovery Charge. SCE has been permitted to issue bonds that enable it to recover more quickly certain costs related to preventing and mitigating catastrophic wildfires, while reducing the total cost to its customers. The Fixed Recovery Charge (FRC) has been approved by the CPUC to repay those bonds. The right to recover the FRC has been transferred to a separate entity (called the Special Purpose Entity) that issued the bonds and recovery does not belong to SCE. SCE is collecting the FRC on behalf of the Special Purpose Entity.
