Schedule TOU-D-T Sheet 1
TIME-OF-USE TIERED DOMESTIC

WITHDRAWN

APPLICABILITY

Applicable as an option to Customers eligible for service under Schedule D and D-CARE. This Schedule is not applicable to Customers receiving service under Schedules D-FERA, DM, DMS-1, DMS-2, DMS-3, or in combination with DS. (Service under this Schedule is subject to meter availability.) TOU-D-T is also referred to as the Off Peak Savings Plan.

Pursuant to Special Condition 5 herein, Customers receiving service under this Schedule are eligible to receive the California Climate Credit as shown in the Rates section below.

As of March 1, 2019, this Schedule is closed to new Customers. Customers served on this Schedule prior to March 1, 2019, are eligible to continue receiving service on this Schedule until transitioned to an applicable Option with updated TOU Periods during SCE's residential TOU default implementation (anticipated to be in late 2020).

Pursuant to Decision 18-11-029, except for the Customers on Discontinued TOU Periods to continue the existing dual participation in accordance with Special Condition 3.d., all Customers served under Option CPP of this Schedule are not eligible to enroll in any other demand response program offered by SCE or any third-party administered demand response program. (T)

Pursuant to California Public Utilities Commission Decisions (D.)17-01-006 and D.17-10-018, solar Customers meeting the eligibility criteria outlined in Special Condition 9 below are eligible to continue receiving service on this Schedule for the duration of their Discontinued TOU Period Criteria. (T) (T)

TERRITORY

Within the entire territory served.

Minimum Charge** - $/Meter/Day			
Single-Family Accommodation	0.346		
Multi-Family Accommodation	0.346		
Minimum Charge (Medical Baseline)** - $/Meter/Day			
Single-Family Accommodation	0.173		
Multi-Family Accommodation	0.173		
California Climate Credit[4]	(56.00)		
California Alternate Rates for Energy Discount - %	100.00*		
Option DT-CPP			
CPP Event Energy Charge - $/kWh		0.80000	
Summer CPP Non-Event Credit			
On-Peak Energy Credit - $/kWh		(0.15170)	
Maximum Available Credit - $/kWh****			
Summer Season		(0.65848) (R)	

* The Minimum Charge is applicable when the Delivery Service Energy Charge, minus the WFC, plus the applicable Basic Charge is less than the Minimum Charge. The difference between these two amounts is the Balance of Minimum Charge and is included on a Customer's bill.

** Represents 100% of the discount percentage as shown in the applicable Special Condition of this Schedule.

*** The ongoing Competition Transition Charge (CTC) of $(0.00058) per kWh is recovered in the UG component of Generation.

****The Maximum Available Credit is the capped credit amount for CPP Customers dual participating in other demand response programs.

1 Total = Total Delivery Service rates are applicable to Bundled Service, Direct Access (DA) and Community Choice Aggregation Service (CCA Service) Customers, except DA and CCA Service Customers are not subject to the DWRBC rate component of this Schedule but instead pay the DWRBC as provided by Schedule DA-CRS or Schedule CCA-CRS

2 Generation = The Gen rates are applicable only to Bundled Service Customers. See Special Condition below for PCIA recovery.

3 DWREC = Department of Water Resources (DWR) Energy Credit – For more information on the DWR Energy Credit, see the Billing Calculation Special Condition of this Schedule.

4 Applied on an equal basis, per household, semi-annually. See the Special Conditions of this Schedule for more information.

5 The Modified Cost Allocation Mechanism (MCAM) charge recovers the net cost associated with system reliability procurement ordered by the CPUC that SCE has procured on behalf of customers whose generation services are provided by certain Electric Service Providers or Community Choice Aggregators.

** The Minimum Charge is applicable when the Delivery Service Energy Charge, minus the DWRBC, plus the applicable Basic Charge is less than the Minimum Charge. The difference between these two amounts is the Balance of Minimum Charge and is included on a Customer's bill.

1 Trans = Transmission and the Transmission Owners Tariff Charge Adjustments (TOTCA) which are FERC approved. The TOTCA represents the Transmission Revenue Balancing Account Adjustment (TRBAA) of $(0.00271) per kWh, Reliability Services Balancing Account Adjustment (RSBAA) of $(0.00015) per kWh, and Transmission Access Charge Balancing Account Adjustment (TACBAA) of $0.00266 per kWh.

2 Distrbtn = Distribution

3 NSGC = New System Generation Charge

4 NDC = Nuclear Decommissioning Charge

5 PPPC = Public Purpose Programs Charge (includes California Alternate Rates for Energy Surcharge where applicable.)

6 CIA = Conservation Incentive Adjustment

7 WFC = Wildfire Fund Non-Bypassable Charge. The Wildfire Fund Non-Bypassable Charge supports the California Wildfire Fund and is not applicable to exempt Customers pursuant to D.19-10-056.

8 PUCRF = The PUC Reimbursement Fee is described in Schedule RF-E.

9 Total = Total Delivery Service rates are applicable to Bundled Service, Direct Access (DA) and Community Choice Aggregation Service (CCA Service) Customers, except DA and CCA Service Customers are not subject to the DWRBC rate component of this Schedule but instead pay the DWRBC as provided by Schedule DA-CRS or Schedule CCA-CRS.

10 DWRA = A refund from the California Department of Water Resources (DWR) relating to the purchase of power during the 2000-2001 energy crisis.

11 Applied on an equal basis, per household, semi-annually. See the Special Conditions of this Schedule for more information.

12 The Modified Cost Allocation Mechanism (MCAM) charge recovers the net cost associated with system reliability procurement ordered by the CPUC that SCE has procured on behalf of customers whose generation services are provided by certain Electric Service Providers or Community Choice Aggregators.

WITHDRAWN

(Continued)

Schedule TOU-D-T Sheet 4
TIME-OF-USE TIERED DOMESTIC

SPECIAL CONDITIONS

1. Applicable rate time periods are defined as follows:

On-Peak:	12:00 p.m. to 6:00 p.m. summer and winter weekdays except holidays.
Off-Peak:	All other hours - all year, everyday.
CPP Event Energy Charge Periods:	4:00 p.m. to 9:00 p.m. summer and winter days during a CPP Event only. (C) (C)
CPP Non-Event Energy Credit Periods:	Summer Season days 4:00 p.m. to 9:00 p.m., when a CPP Event is not occurring. (C)

Holidays are New Year's Day (January 1), Presidents' Day (third Monday in February), Memorial Day (last Monday in May), Independence Day (July 4), Labor Day (first Monday in September), Veterans Day (November 11), Thanksgiving Day (fourth Thursday in November), and Christmas (December 25).

When any holiday listed above falls on Sunday, the following Monday will be recognized as a holiday. No change will be made for holidays falling on Saturday.

The Summer Season shall commence at 12:00 a.m. on June 1 and continue until 12:00 a.m. on October 1 of each year. The winter season shall commence at 12:00 a.m. on October 1 of each year and continue until 12:00 a.m. on June 1 of the following year.

2. Basic Charge: For purposes of applying the Basic Charge, the following definitions shall be used:

Single-Family Accommodation: A building of single occupancy that does not share common walls, floors, or ceilings with other Single-Family Dwellings, except as specified in the Multifamily Accommodation definition below.

Multifamily Accommodation: Apartments, mobilehomes, mobilehomes in a mobilehome park, condominiums, townhouses, Qualifying Recreational Vehicle Unit, Qualifying Recreational Park, Owner Lot Recreational Vehicle Park, or a building of multiple occupancy which shares common walls and/or floors and ceilings with other Single-Family Dwellings.

WITHDRAWN

Schedule TOU-D-T Sheet 5
TIME-OF-USE TIERED DOMESTIC

SPECIAL CONDITIONS (Continued)

3. Critical Peak Pricing: Critical Peak Pricing (CPP) is an event-based pricing option which provides bill credits in the Summer Season from 4:00 p.m. to 9:00 p.m. during CPP Non-Event Credit Periods and incremental bill charges for load served by SCE during CPP Event Charge Periods. No CPP credits will be provided for exported generation, i.e., energy produced and exported by the Customer's Generating Facility during CPP Non-Event Credit Periods.

   a. CPP Events: SCE may, at its discretion, call a CPP Event any day. CPP Events will be called based on any one of the following criteria: (C)

      (1) California Independent System Operator (CAISO) Alert,
      (2) Forecasts of SCE system emergencies – may be declared at the generation, transmission, or distribution circuit level
      (3) Forecasts of extreme or unusual temperature conditions impacting system demand
      (4) Day-ahead load and/or price forecasts

   b. Number of CPP Events: There will be a minimum of 12 CPP events and a maximum of 15 CPP Events per calendar year.

WITHDRAWN

(Continued)

Schedule TOU-D-T Sheet 6
TIME-OF-USE TIERED DOMESTIC

SPECIAL CONDITIONS (Continued)

3. Critical Peak Pricing: (Continued)

c. Notification of a CPP Event: SCE will notify Customers of a CPP Event via SCE's notification system. Customers are responsible for providing SCE with contact information consisting of a telephone number, electronic mail address, and/or SMS text number for notification of Events. Customers are responsible for updating Customer contact information as necessary. SCE will begin to notify Customers no later than 3:00 p.m. the day before a CPP Event. Customers are responsible for all charges incurred during a CPP Event, even if notice is not received. Customers who fail to provide the necessary contact information prior to CPP Events are responsible for all charges incurred during CPP Events.

d. Participation in other Programs: Only Bundled Service Customers shall be served under CPP. Direct Access Customers and Community Choice Aggregation Service Customers are ineligible for service under CPP of this Schedule. Only Customers dually participating in CPP of this Schedule and Schedule D-SDP prior to October 26, 2018 are grandfathered to continue the existing dual participation. All other CPP Customers served under this Schedule are not eligible to dually enroll in any demand response program offered by SCE or any third-party administered demand response program. Customers served under Schedule S are not eligible for service under Option CPP of this Schedule. Customers served under this Schedule are eligible for service under Net Energy Metering Schedules. Customers who wish to take service on Schedule NBT, Net Billing Tariff, must be served under the PRIME or PRIME-CPP Option of Schedule TOU-D. (N) | (N)

For CPP Customers grandfathered to continue to dually participate with Schedule D-SDP, the sum of credits provided by the dual participating demand response program and CPP of this Schedule will be capped. The capped credit amount, also known as the maximum Available Credit, is listed in Option D-T-CPP of this Schedule. These grandfathered Customers are capped at the megawatt level as of December 10, 2018.

e. Bill Protection: The purpose of Bill Protection is to ensure, over the initial 12-month period of service on CPP, that the Customer is billed an amount no greater than the Customer would otherwise be billed under Schedule TOU-D-T.

(1) A Customer served on CPP will receive a one-time Bill Protection credit for the positive sum, if any, in total CPP Event Energy Charges and total Summer CPP Non-Event Credits as calculated under Option D-T-CPP, and as measured over a period of up to 12 months from the date the Customer elects CPP.

(Continued)

WITHDRAWN

Schedule TOU-D-T
TIME-OF-USE TIERED DOMESTIC

Sheet 7

SPECIAL CONDITIONS (Continued)

4. Change of Rate Schedule: There is no minimum length of time that a Customer must take service under this Schedule. In the event a Customer desires to transfer to another applicable rate schedule, the change will become effective for service supplied after the next regular meter reading following the date of notice to SCE. The Customer shall not be allowed to make an additional change in rate schedule until 12 months of service has been provided under the rate schedule then in effect.

   Customers eligible for TOU Period Grandfathering as detailed in Special Condition 9 who elect a change of rate schedule will no longer be eligible for this Schedule.

5. California Alternate Rates for Energy CARE Discount: Customers who meet the definition of a CARE Household, as defined in Schedule D-CARE, may qualify for a 32.5 percent discount off of their electric bill prior to the application of the Public Utilities Commission Reimbursement Fee (PUCRF) and any applicable user fees, taxes and late payment charges in full. Eligible CARE Customers are required to pay the PUCRF and any applicable user fees, taxes, and late payment charges in full. In addition, eligible CARE Customers are exempt from paying the CARE Surcharge of $0.01462 per kWh, the Wildfire Fund Non-Bypassable Charge of $0.00595 per kWh, and the Fixed Recovery Charge of $0.00198 per kWH. An application and eligibility declaration is required for service under this Special Condition. Eligible Customers shall have the CARE Discount applied to this Schedule commencing no later than one billing period after receipt and approval of the Customer's application by SCE. Customers may be rebilled for periods in which they do not meet the eligibility requirements for the CARE Discount. (I)

WITHDRAWN

(Continued)

Schedule TOU-D-T Sheet 8
TIME-OF-USE TIERED DOMESTIC

SPECIAL CONDITIONS (Continued) (L)

6. Arrearage Management Plan (AMP): AMP is a debt forgiveness payment plan option for eligible residential Customers. An eligible Customer is a Customer who has been an SCE Customer for a minimum of six months, enrolled in the CARE program, made at least one on-time payment,[1] and has a past due bill (i.e., arrearage) balance of $500 or greater which is 90 days or older. Once enrolled in the AMP, SCE shall forgive 1/12 of an eligible residential Customer's arrearage after each on-time payment. After 12 on-time payments, SCE shall forgive the remaining arrearage debt up to a maximum of $8,000 per instance of enrollment. After successfully completing the AMP plan, a customer can re-enroll after a 12-month waiting period beginning the first month after the AMP was successfully completed. A Customer can miss up to two non-sequential payments if the Customer makes up the payment on the next billing due date with an on-time payment of both the current and missed payments. This can occur twice during the 12 months a Customer is on AMP. On the third instance, the Customer will be removed from the AMP. If a Customer is removed from AMP before reaching 12 on-time payments, there will be no impact on the 1/12th debt forgiven for previous on-time payments. Customers who are removed from the AMP program may re-enroll after a 12-month waiting period, assuming they meet the eligibility requirements, beginning the first month after the eligible Customer was removed. Any Customers who are removed from CARE while on AMP will be given the opportunity to complete their AMP but will be unable to re-enroll in the future unless they met the eligibility requirements. Low-Income Home Energy Assistance Program assistance will be applied to the monthly bills, not the arrearage. When extenuating circumstances occur that are the result of SCE operations, exceptions to these AMP rules are permitted as follows: (1) a Customer removed from AMP may re-enroll in AMP prior to the 12-month waiting period; (2) an AMP Customer who receives and pays on a bill consisting of multiple months' charges will receive 1/12 arrearage forgiveness for each month's charges that are ultimately paid on time; (3) for an AMP Customer who receives a delayed bill and does not entirely pay the bill consisting of multiple months' charges, the unpaid amounts associated with prior months' charges will be due and eligible for a payment arrangement when the Customer exits AMP; (4) any AMP forgiveness that was or will be applied between an AMP Customer's enrollment in an NEM tariff and the Customer's removal from AMP will remain on the Customer account. (N) (N)

(L)

1. An on-time payment is defined as payment that equals or exceeds the current monthly bill within 19 days of the bill date.

WITHDRAWN

(Continued)

Schedule TOU-D-T Sheet 9
TIME-OF-USE TIERED DOMESTIC

SPECIAL CONDITIONS (Continued)

7. Billing Calculation: A Customer's bill is calculated according to the rates and conditions above. (T)

The charges listed in the Rates section are calculated by multiplying the total Delivery Service rates and the Generation rates, when applicable, by the billing determinants (e.g., per kilowatt [kW], kilowatthour [kWh], etc.).

As of January 1, 2012, all generation supplied to Bundled Service Customers is provided by SCE. The DWR Energy Credit provided to Bundled Service Customers is determined by multiplying the DWR Energy Credit rate component by the Customer's total kWhs.

In order to determine the allocation of baseline kWh to each Time-of-Use (TOU) period, the Customer's baseline allowance for the billing period is first allocated to each TOU period based on the ratio of the metered seasonal kWh in the TOU period to the total metered seasonal kWhs in the billing cycle. TOU kWhs are then assigned to each tier by applying the existing tiering parameters. Baseline allowance for distribution to TOU periods is the minimum of the standard allocation as set forth in Preliminary Statement, Part H, or total metered kWh for the billing cycle.

a. Bundled Service Customers receive Delivery Service and Generation service from SCE. The Customer's bill is the sum of the charges for Delivery Service and Generation service determined, as described in this Special Condition, and subject to applicable discounts or adjustments provided under SCE's tariff schedules.

b. Direct Access Customers receive Delivery Service from SCE and purchase energy from an Energy Service Provider. The Customer's bill is the sum of the charges for Delivery Service determined as described in this Special Condition except that the DWRBC rate component is subtracted from the total Delivery Service rate before the billing determinants are multiplied by such resulting total rate; plus the applicable charges as shown in Schedule DA-CRS and subject to applicable discounts or adjustments provided under SCE's tariff schedules.

WITHDRAWN

(Continued)

Schedule TOU-D-T Sheet 10
TIME-OF-USE TIERED DOMESTIC

SPECIAL CONDITIONS (Continued)

4. Critical Peak Pricing: (Continued)

c. Notification of a CPP Event: SCE will notify customers of a CPP Event via SCE's notification system. Customers are responsible for providing SCE with contact information consisting of a telephone number, fax number, electronic mail address, and/or SMS text number for notification of Events. Customers are responsible for updating customer contact information as necessary. SCE will begin to notify customers no later than 3:00 p.m. the business day before a CPP Event. Customers are responsible for all charges incurred during a CPP Event, even if notice is not received. Customers who fail to provide the necessary contact information prior to CPP Events are responsible for all charges incurred during CPP Events.

d. Participation in other Programs: Only Bundled Service Customers shall be served under Option CPP. Direct Access Customers and Community Choice Aggregators are ineligible for service under Option CPP of this Schedule. CPP customers are eligible for service under Schedule D-SDP. A customer enrolled in Option CPP of this Schedule will not be eligible to receive Peak Time Rebate credits. Customers served under Schedule S are not eligible for service under Option CPP of this Schedule. Customers served under this Schedule are eligible for service under Schedules D-SDP, NEM and OBMC.

For CPP customers dual participating with Schedule D-SDP, the sum of credits provided by the dual participating demand response program and Option CPP of this Schedule will be capped. The capped credit amount, also known as the maximum Available Credit, is listed in the applicable Option CPP of this Schedule.

e. Bill Protection: The purpose of Bill Protection is to ensure, over the initial 12-month period of service on Option CPP, that the customer is billed an amount no greater than the customer would otherwise be billed under Schedule TOU-D-T. (T)

(1) A CPP customer will receive a Bill Protection credit for the positive difference, if any, in total charges calculated under Option CPP minus total charges as calculated under Schedule TOU-D-T as measured over a period of 12 months from the date the customer is defaulted to or elects Option CPP; (T)

(2) If a CPP customer opts-out of Option CPP prior to the completion of 12 months of service, the customer shall not receive Bill Protection credits for the period the customer was billed under Option CPP;

If a customer's bill calculated under Option CPP is equal to or less than their bill as calculated over the 12-month period, the customer's Bill Protection Credit is zero.

(Continued)

WITHDRAWN

Schedule TOU-D-T
TIME-OF-USE TIERED DOMESTIC

Sheet 11

SPECIAL CONDITIONS (Continued)

7. Billing Calculation: (Continued)

   c. CCA Service Customers receive Delivery Service from SCE and purchase energy from their Community Choice Aggregator (CCA). SCE will read the meters and present the bill for both Delivery Service and Generation to the CCA Service Customer. The Customer's bill is the sum of the charges for Delivery Service as displayed in this Rate Schedule and Generation charges determined by the CCA plus the applicable charges as shown in Schedule CCA-CRS, and subject to applicable discounts or adjustments provided under SCE's tariff schedules.

8. Residential California Climate Credit: A semi-annual credit from the State of California to fight climate change. The credit is applied after the calculation of city and county utility users' taxes on customers' utility bills and prior to the application of franchise fees on an equal basis, per household, to the April and October billing statements of Customers receiving service under this schedule at the time the California Climate Credit is disbursed (April 1 and October 1). Any California Climate Credit not consumed in the billing period in which the credit is applied will roll over to each subsequent billing period until the credit is fully consumed. (D)

9. Customer-Owned Electrical Generating Facilities:

   a. For Customers not eligible for service under Schedule NEM, Net Energy Metering, Schedule NEM-ST, or Schedule NBT, Net Billing Tariff, and where Customer-owned electrical generating facilities are used to meet a part or all of the Customer's electrical requirements, service shall be provided concurrently under the terms and conditions of Schedule S and this Schedule. Parallel operation of such generating facilities with SCE's electrical system is permitted. A generation interconnection agreement is required for such operation.

(Continued)

WITHDRAWN

Schedule TOU-D-T
TIME-OF-USE TIERED DOMESTIC

Sheet 12

SPECIAL CONDITIONS (Continued)

9. Customer-Owned Electrical Generating Facilities: (Continued)

b. For Customers of record on Schedule D-PG as of April 30, 1996, who were subsequently transferred by SCE to an applicable Domestic rate schedule, who have a valid Qualifying Facilities (QF) contract with SCE, and who are not eligible for service under Schedule NEM, Net Energy Metering, or its successor, Schedule NEM-ST, the Energy Charges for such parallel generation Customers shall be determined using kWh of Net Energy as defined and set forth below: (D)

c. Customer-owned electrical Generating Facilities used solely for auxiliary, emergency, or standby purposes (auxiliary/emergency generating facilities) to serve the Customer's load during a period when SCE's service is unavailable and when such load is isolated from the service of SCE are not subject to Schedule S. However, upon approval by SCE, momentary parallel operation may be permitted to allow the Customer to test the auxiliary/emergency generating facilities. A Momentary Parallel Generation Contract is required for this type of service.

SPECIAL CONDITIONS (Continued)

10. Discontinued TOU Period Criteria: Pursuant to D.17-01-006 and D.17-10-018, behind-the-meter (BTM) solar Customers who meet the eligibility criteria described below are eligible to continue receiving service on this rate schedule for the Duration outlined below even after this rate schedule is closed to new Customers. (T)

a. Customer Eligibility:

(1) Customers must have been served on a TOU Option as of July 31, 2017.

(2) Customers must have submitted their initial solar Generating Facility interconnection application by January 31, 2017.

(3) Customers served on Schedules NEM-ST, MASH-VNM-ST or NEM-V-ST are not eligible. Alternate Discontinued TOU Period provisions for those Customers are included in those respective schedules and differ from what is included in this Special Condition. (T)

b. System Eligibility:

(1) This provision is only applicable to BTM solar Generating Facilities.

(2) The solar Generating Facility must have been designed to offset at least 15 percent of the Customer's current annual load, as determined by SCE.

c. Duration:

(1) Customers are permitted to remain on this rate schedule and be billed under the Discontinued TOU Periods for a period of five years from their solar Generating Facility's original permission to operate date.

(2) In no event shall the duration of this Discontinued TOU Period extend beyond July 31, 2022 for any Customers served on this Schedule, regardless of whether the Customer has received the full five years of the Discontinued TOU period . Customers will be transitioned to Options with current TOU periods upon expiration of their Discontinued TOU Periods at the start of the next billing period that occurs immediately on or after Annual Migration Date (expected to be in November), as outlined in Advice 3582-E-A. d. Attributes:

The Discontinued TOU Period Criteria described herein allows the (T)
Customer to maintain Discontinued TOU Periods for the duration. Other (T)
changes in rate design, including allocating marginal costs to TOU periods and setting specific rate levels, will be litigated in utility-specific rate proceedings.

e. Discontinued TOU Periods: Applicable rate time periods are defined as follows: (T)

On-Peak: 12:00 p.m. to 6:00 p.m. summer and winter weekdays except holiday

Off-Peak: All other hours - all year, every day.

Holidays are New Year's Day (January 1), Presidents' Day (third Monday in February), Memorial Day (last Monday in May), Independence Day (July 4), Labor Day (first Monday in September), Veterans Day (November 11), Thanksgiving Day (fourth Thursday in November), and Christmas (December 25).

When any holiday listed above falls on Sunday, the following Monday will be recognized as a holiday. No change will be made for holidays falling on Saturday. The summer season shall commence at 12:00 a.m. on June 1 and continue until 12:00 a.m. on October 1 of each year. The winter season shall commence at 12:00 a.m. on October 1 of each year and continue until 12:00 a.m. on June 1 of the following year.

TIME-OF-USE TIERED DOMESTIC

SPECIAL CONDITIONS (Continued)

11. San Joaquin Valley Disadvantaged Communities Pilot Projects (SJV Pilot) Bill Protection Discount: (Continued)

    a. If the evaluation finds that all participants in the evaluation study, except quantitatively-measurable statistical outliers, experience energy costs savings (i.e., total energy costs have not increased), SCE shall reduce the monthly electricity bill discount to a 10 percent discount for an additional five years; or

    b. If the evaluation finds that any participants in the evaluation study, except quantitatively-measurable statistical outliers, experience an energy cost increase, SCE shall continue to provide a 20 percent discount for an additional five years.

    If the customer service agreement changes during the 10-year bill protection period (i.e., change of property ownership, change in occupancy) the Bill Protection Discount and Transitional Community Solar Discount shall be terminated. A new customer moving into an electrified house shall not receive the SJV Pilot Bill Protection Discount or Transitional Community Solar Discount.

12. Transitional Community Solar Discount: SJV Pilot participants eligible for the Community Solar-Green Tariff (CSGT) or the Disadvantaged Communities-Green Tariff (DAC-GT) program shall be provided a 20 percent Transitional Community Solar monthly bill credit for the 10-year bill protection period if neither program is available when the SJV Pilot participant receives the first Bill Protection Discount. If the DAC-GT or CSGT programs are available, yet a customer cannot participate due to subscription or locational limitations, the 20 percent Transitional Community Solar Discount will still apply. The Transitional Community Solar discount will not apply to customers who have onsite solar through the Single-Family Affordable Solar Homes (SASH) program, the Disadvantaged Communities SASH (DAC-SASH) program, Net Energy Metering (NEM), or through another program.

13. PCIA Recovery in Bundled Generation Rates: Bundled Service Customer Generation charges include an amount to recover the above-market portion of SCE's generation portfolio. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources. This above-market portion is referred to as the Power Charge Indifference Adjustment (PCIA) amount and is shown on Bundled Service Customers' bills under the description of the Generation charge.

14. Fixed Recovery Charge. SCE has been permitted to issue bonds that enable it to recover more quickly certain costs related to preventing and mitigating catastrophic wildfires, while reducing the total cost to its customers. The Fixed Recovery Charge (FRC) has been approved by the CPUC to repay those bonds. The right to recover the FRC has been transferred to a separate entity (called the Special Purpose Entity) that issued the bonds and recovery does not belong to SCE. SCE is collecting the FRC on behalf of the Special Purpose Entity. (N)
