Schedule WTR Sheet 1
WIRELESS TECHNOLOGY RATE

## APPLICABILITY

Applicable to single-phase service for wireless technology industries and utility Customers deploying advanced metering infrastructure (AMI) that require electric service to operate radio repeaters or similar devices (wireless communication devices) that are mounted on existing SCE facilities, or other facilities approved by SCE and are unmetered. Smart Community Technology Attachment Pilot devices of 50 watts or less are applicable under this Schedule on a trial basis. This Schedule excludes Wi-Fi devices on "looped" (served by 120/240 volts) streetlight facilities owned by SCE. Customers must execute an application/contract with SCE for service under this Schedule, and must execute an applicable agreement when devices are attached to SCE-owned facilities. The monthly kilowatt-hour (kWh) usage of each device shall not exceed 2,700 kWh. Effective with the date the Customer becomes ineligible for service under this Schedule, the Customer's account shall be transferred to Schedule GS-1 or another applicable rate schedule. If the Customer's account cannot be transferred to another applicable rate schedule, the account will be closed, SCE's service will be removed and the Customer must remove its device and equipment from the applicable SCE-owned facility.

## TERRITORY

SPECIAL CONDITIONS

1. Contract: A contract, Form 14-687, is required for service under this Schedule. Utility Customers taking service for AMI-related devices must sign Form 14-915 or 14-916, as applicable.

2. Voltage: Service will be supplied at 120 volts (one fuse per 120 volt leg).

3. Three-Phase Service: Where SCE determines, it is impractical to provide single-phase service under this Schedule, three-phase service will be provided.

4. Limited Availability: This Schedule is available only where SCE determines that an applicable agency having jurisdiction has an existing code, ordinance, formal policy statement or requirement that prohibits above ground electrical meter facilities in the public right-of-way.

SPECIAL CONDITIONS (Continued)

5. Determination of Monthly usage: The customer must provide SCE information from which SCE can determine the level of kWh usage to be consumed and/or level of service to be provided, such as the manufacturers' equipment specifications, data sheets, etc., and the number of devices to be installed. SCE will place the customer in the appropriate usage tier and charge according to the maximum value of that tier. SCE retains the right to perform on-site inspections to verify the energy consumption of the device(s).

6. Maximum Wattage: The rate tiers must coincide with the maximum wattage ratings listed below. The wattage information shall be provided by the customer in order to assist SCE in determining the appropriate tier.

| Tiers | Monthly Usage | Fuse Size | Maximum Watts/Connected Load Name Plate | |
|---|---|---|---|---|
| 1 | 1-25 kWh | KTK-3/4 | 75 watts | (N) |
| 1.5 | 26-50 kWh | KTK-3/4 | 75 watts | (T) |
| 2 | 51-100 kWh | KTK-1 | 149 watts | \| |

| 15 | 2,251 – 2,700 kWh | KTK-30 | 4,028 watts | (T) |

7. Installation: The device(s) shall be installed on SCE facilities, or other facilities approved by SCE. Utility customers taking service for AMI-related devices attached to SCE-owned facilities may attach only to underground-fed concrete streetlight poles as described in Form 14-916. When the devices are installed on SCE facilities, the installation and removal of such device(s) will be performed by the customer, and at the customer's expense. Device installation shall not be performed under this Schedule where location, mounting height, and/or other considerations are not acceptable to SCE. Unless approved by SCE, all wireless communication devices must be visible to SCE.

SPECIAL CONDITIONS (Continued)

8. Modification of Facilities: No modifications can be made to the customer-owned wireless communications devices or the AMI-related devices unless approved by SCE. Where the customer requests a modification of SCE-owned facilities, and such modifications are acceptable to SCE, SCE will perform the requested modifications at the customer's expense.

9. Maintenance: SCE shall exercise reasonable care and diligence in maintaining its facilities or SCE-owned attachments thereto. Upon installation of the device(s), where SCE experiences, or expects to experience, maintenance costs exceeding its normal maintenance expense resulting from, but not limited to, vandalism, SCE may require the customer to pay the excess maintenance expense.

10. Discontinuance and Restoration of Service: Discontinuance and restoration of service to the customer shall be completed in accordance with Rule 11.

11. Liability of SCE: SCE shall not, by taking action pursuant to its tariffs, be liable for any loss, damage, or injury, established or alleged, which may result, or be claimed to result, there from.

12. Distribution Line Extension: Distribution line extensions shall be installed in accordance with Rule 15.

13. Service Extension: Services shall be installed and maintained as provided in Rule 16.

14. Initialization of Service Charge: A one-time charge, as shown in the RATES section of this Schedule, is applied to each new service account when the customer turns on service under this Schedule to recover the costs associated with the initialization of service (i.e., replacement of a lock and spare fuse).

15. Inspection Charge: The Inspection Charge will not apply to devices within Tiers 1 and 1.5 and that do not require a fused splice box. (N) (N)

SPECIAL CONDITIONS

15. Billing Calculation: A customer's bill is calculated according to the rates and conditions above.

The charges listed in the RATES section are calculated by multiplying the Total Delivery Service rates and the Generation rates, when applicable, by the billing determinants (e.g., per kilowatt [kW], kilowatthour [kWh], etc.).

As of January 1, 2012, all generation supplied to Bundled Service Customers is provided by SCE. The DWR Energy Credit provided to Bundled Service Customers is determined by multiplying the DWR Energy Credit rate component by the customer's total kWhs.

a. Bundled Service Customers receive Delivery Service and Generation service from SCE. The customer's bill is the sum of the charges for Delivery Service and Generation service determined, as described in this Special Condition, and subject to applicable discounts or adjustments provided under SCE's tariff schedules.

b. Direct Access Customers receive Delivery Service from SCE and purchase energy from an Energy Service Provider. The customer's bill is the sum of the charges for Delivery Service determined as described in this Special Condition except that the DWRBC rate component is subtracted from the Total Delivery Service rates before the billing determinants are multiplied by such resulting Total rates; plus the applicable charges as shown in Schedule DA and subject to applicable discounts or adjustments provided under SCE's tariff schedules.

c. CCA Service Customers receive Delivery Service from SCE and purchase energy from their Community Choice Aggregator (CCA). SCE will read the meters and present the bill for both Delivery and Generation Services to the CCA Service Customer. The customer's bill is the sum of the charges for Delivery Service as displayed in this Rate Schedule and Generation charges determined by the CCA plus the applicable charges as shown in Schedule CCA-CRS, and subject to applicable discounts or adjustments provided under SCE's tariff schedules.

16. Utility customers taking service for AMI-related devices will be charged according to the table entitled AMI Devices in the RATES section of this Schedule.

17. PCIA Recovery in Bundled Generation Rates: Bundled Service Customer Generation charges include an amount to recover the above-market portion of SCE's generation portfolio. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources. This above-market portion is referred to as the Power Charge Indifference Adjustment (PCIA) amount and is shown on Bundled Service Customers' bills under the description of the Generation charge. SPECIAL CONDITIONS

18. Fixed Recovery Charge. SCE has been permitted to issue bonds that enable it to recover more quickly certain costs related to preventing and mitigating catastrophic wildfires, while reducing the total cost to its customers. The Fixed Recovery Charge (FRC) has been approved by the CPUC to repay those bonds. The right to recover the FRC has been transferred to a separate entity (called the Special Purpose Entity) that issued the bonds and recovery does not belong to SCE. SCE is collecting the FRC on behalf of the Special Purpose Entity.
