# SCHEDULE OL-TOU

OUTDOOR LIGHTING - TIME METERED

## APPLICABILITY

This schedule is available as an optional service applicable to metered outdoor sports and recreation area lighting load and safety and security lighting, not including street or highway lighting, controlled exclusively for nighttime operation. This schedule is not applicable to customers with Monthly Maximum Demand greater than 200 kW for three consecutive months, or greater than 500 kW for one month. Additionally, incidental, non-outdoor area lighting load shall be served under this schedule if the incidental load meets the following conditions: 1) does not exceed 15 percent of the customer's Maximum Monthly Demand and 2) does not exceed 20 kW, regardless of the time such incidental load operates. Service under this schedule is not applicable to any customer whose monthly maximum demand is less than 20 kW and to any customer whose incidental load causes a summer on-peak demand that equals, exceeds, or is expected to equal or exceed 20 kW for three consecutive billing periods. Customers on this Schedule whose Monthly Maximum Demand is not less than 20 kW for three consecutive months will also take commodity service on Schedule EECC-CPP-D. Customers on this Schedule whose Monthly Maximum Demand is less than 20 kW for three consecutive months must also take commodity service; they may optionally elect Schedule EECC-CPP-D or they may choose Schedule EECC-TOU-A-P in which case their Utility Distribution Company service rate would be Schedule TOU-A. In addition, customers may exercise the right to opt-out of the applicable dynamic rate (e.g., EECC-CPP-D or EECC-TOU-A-P) to their otherwise applicable Utility Distribution Company and commodity rates. For opt-out provisions, refer to the applicable commodity tariff.

CPUC Decision (D.)17-01-006 and D.17-10-018 permit certain eligible behind-the-meter solar customers to continue billing under grandfathered time-of-use (TOU) period definitions for a specific period of time. Customer eligibility and applicable TOU periods, rates, and conditions for TOU Period Grandfathering are defined in Special Condition 12. All terms and conditions in this schedule apply to TOU grandfathering customers unless otherwise specified.

## TERRITORY

Within the entire territory served by the Utility.

# SCHEDULE OL-TOU

OUTDOOR LIGHTING - TIME METERED

RATES (Continued)

Minimum Charge
The minimum monthly charge shall be the sum of the Service Charges

Rate Components
The Utility Distribution Company Total Rates (UDC Total) shown above are comprised of the following components (if applicable): (1) Transmission (Trans) Charges, (2) Distribution (Distr) charges, (3) Public Purpose Program (PPP) Charges, (4) Nuclear Decommissioning (ND) Charges, (5) Ongoing Competition Transition Charges (CTC), (6) Local Generation Charge (LGC), (7) Reliability Services (RS), and (8) Total Rate Adjustment Component (TRAC).

Utility Distribution Company (UDC) Total Rate shown above excludes any applicable commodity charges associated with Schedule EECC, Schedule WF-NBC (Wildfire Fund Non-Bypassable Charge) and Schedule DWR-BC (Department of Water Resources Bond Charge).

Certain Direct Access customers are exempt from the TRAC, as defined in Rule 1-Definitions.

Franchise Fee Differential
A Franchise Fee Differential of 5.78% will be applied to the monthly billings calculated under this schedule for all customers within the corporate limits of the City of San Diego. Such Franchise Fee Differential shall be so indicated and added as a separate item to bills rendered to such customers.

Time Periods (Note: for Grandfathered TOU periods, see SC 12)

All time periods listed are applicable to local time. The definition of time will be based upon the date service is rendered.

| TOU Period | Weekdays | | Weekends and Holidays | |
|---|---|---|---|---|
| | Summer | Winter | Summer | Winter |
| On-Peak | 4PM – 9 PM | 4PM – 9 PM | 4PM – 9 PM | 4PM – 9 PM |
| Off-Peak | All other hours | All other hours | All other hours | All other hours |
| Super Off-Peak | Midnight – 6AM; 10 AM – 2 PM | Midnight – 6AM; 10 AM – 2 PM | Midnight – 2 PM | Midnight – 2 PM |

Seasons: Summer June 1 - October 31
Winter November 1 – May 31

# SCHEDULE OL-TOU

OUTDOOR LIGHTING - TIME METERED

Time Periods (Continued) L

Where the billing month contains time from both May and June or October and November, the on-peak period demand charges will be based on the demands registered in each month, weighted by the number of days billed in each month. Energy will be billed on the basis of the time period and season in which the usage occurred. T L

SPECICAL CONDITIONS

1. Definitions: The Definitions of terms used in this schedule are found either herein or in Rule 1.

2. Voltage: Service under this schedule normally will be supplied at a standard available Voltage in accordance with Rule 2.

3. Voltage Regulators: Voltage Regulators, if required by the customer, shall be furnished, installed, owned, and maintained by the customer.

4. Reconnection Charge: Any customer resuming service within twelve months after such service was discontinued will be required to pay all charges which would have been billed if service had not been discontinued.

5. Parallel Generation Limitation. This schedule is not applicable to standby, auxiliary service or service operated in parallel with a customer's generating plant, except as specified in Rule 1 under the definition of Parallel Generation Limitation.

6. Terms of Optional Service. A customer receiving service under this schedule may elect to change to another applicable rate schedule but only after receiving service on this schedule for at least 12 consecutive months. If a customer elects to discontinue service on this schedule, the customer will not be permitted to return to this schedule for a period of one year.

7. Voltage Discount. No voltage discount is available under this schedule.

OUTDOOR LIGHTING - TIME METERED

SPECIAL CONDITIONS (Continued)

9. Billing: A customer's bill is first calculated according to the total rates and conditions listed above. The following adjustments are made depending on the option applicable to the customer:

   a. **UDC Bundled Service Customers** receive supply and delivery services solely from the Utility. The customer's bill is based on the Total Rates set forth above. The EECC component is determined by multiplying the applicable EECC price for this schedule during the last month by the customer's total usage.

   b. **Direct Access (DA) and Community Choice Aggregation (CCA) Customers** purchase energy from a non-utility provider (ESP) and continue to receive delivery services from the Utility. The bills for a DA and CCA Customer will be calculated as if they were a UDC Bundled Service Customer, then crediting the bill by the amount of the EECC component, as determined for a UDC Bundled Customer, and including the appropriate Cost Responsibility Surcharge (CRS), if applicable.

   Nothing in this service schedule prohibits a marketer or broker from negotiating with customers the method by which their customer will pay the CTC charge.

10. Other Applicable Tariffs: Rules 21, 23 and Schedule E-Depart apply to customers with generators.

11. Generator Operation: The operation of a generator unless expressly authorized by tariff is prohibited.

12. TOU Period Grandfathering: Pursuant to D.17-01-006 and D.17-10-018 TOU Period Grandfathering permits certain eligible behind-the-meter solar customers to continue billing under grandfathered TOU period definitions after new TOU Periods are implemented, for a specific period of time. T

    TOU Period Grandfathering Eligible Customer Generator (Non-Residential): a non-residential customer with an on-site solar system, who has filed an initial interconnection application by January 31, 2017. The on-site solar system must be designed to offset at least 15% of the customer's current annual load. For Public Agency customers, defined here as public schools, colleges and universities; federal, state, county and city government agencies; municipal utilities; public water and/or sanitation agencies; and joint powers authorities -- the non-residential account must have filed an initial interconnection application by December 31, 2017.

    TOU Period Grandfathering Term (Non-Residential): Upon SDG&E's implementation of updated TOU periods adopted in D.17-08-030, TOU Grandfathering Eligible Customer Generators will continue to be billed under prior existing TOU periods and resulting rates for the remainder of their applicable TOU Grandfathering Term, which begins upon issuance of a permission to operate customer's on-site solar system and continues for 10 years. In no event shall the duration a customer's grandfathering term extend beyond July 31, 2027 (December 31, 2027 for schools). Upon expiration of a customer's TOU Period Grandfathering Term, the customer will be billed using his otherwise applicable TOU periods and associated rates beginning with the customer's next billing cycle.

PPP Energy charges includes Low Income PPP rate (LI-PPP) $0.01175/kWh, and Non-low Income PPP rate (Non-LI-PPP) $0.00649/kWh.

TOU Grandfathering Time Periods

All time periods listed are applicable to local time.
The definition of time will be based upon the date service is rendered.

| | **Summer – June 1 – October 31** | **Winter – Nov 1 – May 31** |
|---|---|---|
| On-Peak | 11 a.m. - 6 p.m. Weekdays | 5 p.m. - 8 p.m. Weekdays |
| Semi-Peak | 6 a.m. - 11 a.m. Weekdays | 6 a.m. - 5 p.m. Weekdays |
| | 6 p.m. - 10 p.m. Weekdays | 8 p.m. - 10 p.m. Weekdays |
| Off-Peak | 10 p.m. - 6 a.m. Weekdays | 10 p.m. - 6 a.m. Weekdays |
| | Plus Weekends & Holidays | Plus Weekends & Holidays |

Nighttime and daytime operation are defined as the following hours:

Summer
Daytime: 6 a.m. – 6 p.m. Weekdays
Nighttime: 6 p.m. – 6 a.m. Weekdays, plus Weekends and Holidays
Winter
Daytime: 6 a.m. – 5 p.m. Weekdays
Nighttime: 5 p.m. – 6 a.m. Weekdays, plus Weekends and Holidays

Where the billing month contains time from both May and June or October and November, the on-peak period demand charges will be based on the demands registered in each month, weighted by the number of days billed in each month. Energy will be billed on the basis of the time period and season in which the usage occurred.
