SCHEDULE TOU-PA

POWER - AGRICULTURAL TIME OF USE SERVICE

APPLICABILITY

This Schedule is the standard Schedule for customers whose monthly maximum demand does not exceed 20kW for no more than 3 out of 12 consecutive months for general power service utilized to pump water, or in the production of agricultural products including feed choppers, milking machines, heaters for incubators, brooders, poultry house and flower production lighting, but excluding power service used for the processing of agricultural products, general or protective lighting, or domestic household uses. This schedule is available to agricultural and water pumping customers who are classified with one or more of the following North American Industry Classification (NAICS) Codes 11111-11116, 11131-11132, 11191-11194, 111191, 111199, 111211, 111219, 111331-111336, 111339, 111411, 111419, 111421, 111422, 111991-111992, 111998, 11212, 11221, 11221-11224, 11239, 11241-11242, 11291, 11299, 112111-112112, 112511-112512, 112519, 22131, or 22132.

This schedule is the Utility's standard tariff for agricultural customers meeting the applicability of this Schedule. The applicable commodity schedule for customers taking service on this Schedule is EECC (standard) or EECC-TOU-PA-P (optionally available).

Small Business Customers, as defined in Rule 1 and not identified by the California Air Resources Board as Emission Intensive, Trade-Exposed Entities (EITE), qualify for a semi-annual California Climate Credit of $\$_{(49.36)}$, which will display as a separate line item per Schedule GHG-ARR.

TERRITORY

Within the entire territory served by the utility.

SCHEDULE TOU-PA

POWER - AGRICULTURAL TIME OF USE SERVICE

RATES (continued)

Utility Distribution Company (UDC) Total Rate shown above excludes any applicable commodity charges associated with Schedule EECC, Schedule WF-NBC (Wildfire Fund Non-Bypassable Charge) and Schedule DWR-BC (Department of Water Resources Bond Charge). T

Time Periods

All time periods listed are applicable to local time. The definition of time will be based upon the date service is rendered.

Summer (June 1- Oct 31)

On-Peak	4:00 p.m. – 9:00 p.m. weekdays
Off-Peak	Midnight – 4:00 p.m. weekdays, 9:00 p.m. – midnight weekdays, all hours weekends and holidays

Winter (Nov 1 – May 31)

On-Peak	4:00 p.m. – 9:00 p.m. weekdays
Off-Peak	Midnight – 4:00 p.m. weekdays; 9:00 p.m. – midnight weekdays, all hours weekends and holidays

Franchise Fee Differential

A Franchise Fee Differential of 5.78% will be applied to the monthly billings calculated under this schedule for all customers within the corporate limits of the City of San Diego. Such Franchise Fee Differential shall be so indicated and added as a separate item to bills rendered to such customers.

(Continued)

SCHEDULE TOU-PA

POWER - AGRICULTURAL TIME OF USE SERVICE

SPECIAL CONDITIONS

1. Definitions: The Definitions of terms used in this schedule are found either herein or in Rule 1.

2. Appropriate Electric Metering: A fifteen-minute interval data recording meter with related telecommunications capability, compatible with the Utility's meter reading, time-of-use billing, and telecommunications systems.

3. Billing: A customer's bill is first calculated according to the total rates and conditions listed above. The following adjustments are made depending on the option applicable to the customer: D T

   a. UDC Bundled Service Customers receive supply and delivery services solely from the Utility. The customer's bill is based on the Total Rates set forth above. The EECC component is determined by multiplying the applicable EECC price for this schedule during the last month by the customer's total usage.

   b. Direct Access (DA) and Community Choice Aggregation (CCA) Customers purchase energy from a non-utility provider and continue to receive delivery services from the Utility. The bills for a DA and CCA Customer will be calculated as if they were a UDC Bundled Service Customer, then crediting the bill by the amount of the EECC component, as determined for a UDC Bundled Customer, and including the appropriate Cost Responsibility Surcharge (CRS), if applicable.

   Nothing in this service schedule prohibits a marketer or broker from negotiating with customers the method by which their customer will pay the CTC charge.

4. Voltage: Service under this schedule normally will be supplied at a standard available Voltage in accordance with Rule 2. T

5. Reconnection Charge: Any customer resuming service within twelve months after such service was discontinued will be required to pay all charges which would have been billed if service had not been discontinued. T

6. Wind Machine Installations. Thermostatically controlled wind machines with automatic reclosing switches must be equipped at the customer's expense with suitable time-delay devices, as hereinafter specified, to permit the required adjustment of the time of reclosure after interruption of service. T L

   A time-delay device is a relay or other type of equipment that can be preset to delay with various time intervals the reclosing of the automatic switches in order to stagger the reconnection of the load on the utility's system. Such device must be constructed so as to effectively permit a variable over-all time interval of not less than five minutes with adjustable time increments of not greater than ten seconds. The particular setting to be utilized for such separate installation is to be determined by the utility from time to time in accordance with its operating requirements L

(Continued)

SCHEDULE TOU-PA

POWER - AGRICULTURAL TIME OF USE SERVICE

SPECIAL CONDITIONS (Continued)

7. Standby Service. This schedule is not applicable to standby, auxiliary service, or service operated in parallel with a customer's generating plant. T

8. Incremental Usage: This schedule shall be available even if there is incidental usage (under 500 kwh/month) that is not classified as agricultural or water pumping, such as security or safety lighting. T

9. Other Applicable Tariffs: Rules 21, 23 and Schedule E-Depart apply to customers with generators. Customers on Schedule E-DEPART are not eligible for Schedule GHG-ARR. T

10. TOU Period Grandfathering: Pursuant to D.17-01-006 and D.17-08-030, TOU Period Grandfathering permits certain eligible behind-the-meter solar customers to continue billing under grandfathered TOU period definitions for a specific period of time after new TOU Periods are implemented. T

TOU Period Grandfathering Eligible Customer Generator (Non-Residential): a non-residential customer with an on-site solar system, who opts into a TOU tariff prior to July 31, 2017. The customer must have: (1) filed an initial interconnection application by January 31, 2017 and (2) achieved completion of the interconnection application, including final building inspection by July 31, 2017. The on-site solar system must be designed to offset at least 15% of the customer's current annual load. For schools, defined here to include all accounts held by public school districts serving students in kindergarten through grade 12 and county offices of education, the non-residential account must have: (1) filed an initial interconnection application by March 31, 2017 and (2) achieved completion of the interconnection application, including final building inspection by August 31, 2018. In addition, TOU period grandfathering is available to existing agricultural customers on Schedule TOU-PA (as of July 1, 2018) for a specific period of time, as described below.

TOU Period Grandfathering Term (Non-Residential): Upon SDG&E's implementation of updated TOU periods adopted in D.17-08-030 on August 24, 2017, TOU Grandfathering Eligible Customer Generators will continue to be billed under prior existing TOU periods and resulting rates for the remainder of their applicable TOU Grandfathering Term, which begins upon issuance of a permission to operate customer's on-site solar system and continues for 10 years. In no event shall the duration a customer's grandfathering term extend beyond July 31, 2027 (December 31, 2027 for schools). Upon expiration of a customer's TOU period Grandfathering Term, the customer will be billed using his otherwise applicable TOU periods and associated rates beginning with the customer's next billing cycle. Existing TOU-PA customers may remain on their current 3-period structure with legacy TOU periods (i.e. 11 a.m. – 6 p.m. On-Peak) through March 1, 2019, unless the customer elects to opt in to optional schedules with revised TOU periods.

TOU Period Grandfathering Basic Service Fee and Energy Charge Determination: The basic service fee and energy charges will be determined each month based on the customer's Maximum Monthly Demand. The < 20 kW basic service fee and energy charges will apply to customers with Maximum Monthly Demand ≥ 20 kW in no more than three months during a twelve-month period. The ≥ 20 kW basic service fee and energy charges will apply to customers with Maximum Monthly Demand ≥ 20 kW in four months or more during a twelve-month period. N N

SCHEDULE TOU-PA

POWER - AGRICULTURAL TIME OF USE SERVICE

Minimum Charge

The minimum monthly charge shall be the sum of the Service Charges.

Rate Components

The Utility Distribution Company Total Rates (UDC Total) shown above are comprised of the following components (if applicable): (1) Transmission (Trans) Charges, (2) Distribution (Distr) Charges, (3) Public Purpose Program (PPP) Charges, (4) Nuclear Decommissioning (ND) Charge, (5) Ongoing Competition Transition Charges (CTC), (6) Local Generation Charge (LGC), (7) Reliability Services (RS), and (8) Total Rate Adjustment Component (TRAC).

Utility Distribution Company (UDC) Total Rate shown above excludes any applicable commodity charges associated with Schedule EECC, Schedule WF-NBC (Wildfire Fund Non-Bypassable Charge) and Schedule DWR-BC (Department of Water Resources Bond Charge).

Certain Direct Access customers are exempt from the TRAC, as defined in Rule 1-Definitions.

Franchise Fee Differential

A Franchise Fee Differential of 5.78% will be applied to the monthly billings calculated under this schedule for all customers within the corporate limits of the City of San Diego. Such Franchise Fee Differential shall be so indicated and added as a separate item to bills rendered to such customers.

TOU Grandfathering Time Periods

All time periods listed are applicable to local time. The definition of time will be based upon the date service is rendered.
