RATES (Continued)

Rate Components
The Utility Distribution Company Total Rates (UDC Total) shown above are comprised of the following components (if applicable): (1) Transmission (Trans) Charges, (2) Distribution (Distr) Charges, (3) Public Purpose Program (PPP) Charges, (4) Nuclear Decommissioning (ND) Charge, (5) Trust Transfer Amount (TTA), sometimes referred to as Fixed Transition Amount (FTA), (6) Restructuring Implementation Rate (Restruc) which is the sum of the rates for Internally Managed Costs and Externally Managed Costs, (7) Ongoing Competition Transition Charges (CTC), and (8) Reliability Must Run Generation Rates (RMR).

Energy charges associated with Schedule PX (Power Exchange Energy Cost) are in addition to the Utility Distribution Company Total Rates shown above.

Fixed Transition Amount Adjustment
For residential and small commercial customers as defined in Rule 1 – Definitions, and as described in Public Utilities Code Section 331(h), the rates shown above will be adjusted in accordance with the rates set forth in Schedule FTA.

Electric Energy Rate Adjustment
The Electric Energy Rate Adjustment (EERA) is a credit applied to monthly bills of eligible customers (see Rule 1 definition for Energy Rate Ceiling (ERC) to determine eligibility) that reflects the amount by which actual monthly energy charges (commodity charges) exceed the ERC established under Assembly Bill 265 and Decision 00-09-040. The ERC is calculated by multiplying $0.065 times total monthly kWh usage. The EERA will not increase customer bills when actual monthly energy charges are less than $0.065 per kWh. To the extent the total energy component including Purchased Electric Commodity Account (PECA) amortization is less than $0.065 per kWh, total rates for the applicable customers will be reduced accordingly. T T

Time Periods
All time periods listed are applicable to local time.

On-Peak	All hours during which the customer receives an electric contact closure from the utility. A separate closure will be provided to indicate the Signaled Period 1G, Signaled Period 2G, and Signaled Period 3G on-peak periods.
