SCHEDULE D-SMF

COGENERATION OR SMALL POWER PRODUCTION ASSIST
(Closed Schedule)

APPLICABILITY

This schedule is applicable to service for domestic lighting, heating, cooking, water heating, and power service supplied to multi-family accommodations, including mobilehomes, through one meter on a single premises and submetered to all individual tenants. The provision of Rule 19 that disallows submetering of new multi-family accommodations by other than the utility will be waived for electric service provided under this schedule. Electric service to the multi-family accommodations will be supplied jointly by the utility under this schedule, and a cogeneration or small power production source, with a rated generation capacity of less than 100 kW, which meets the criteria for a qualifying facility as defined under 18 CFR, Chapter 1, Part 292, Subpart B of the Federal Energy Regulatory Commission (FERC) regulations; provided that standby electric service is also provided under a utility parallel generation or standby tariff for qualified cogeneration or small power production facilities.

TERRITORY

Within the entire territory served by the utility.

RATES

Description	Transm	Distr	PPP	ND	FTA	Restruc	CTC	RMR	UDC Total
Basic Service Fee ($/mo)		48.19 I							**48.19 I**
On-Peak Demand ($/kW)		2.52 I					0.70		**3.22 I**
Energy Charges ($/kWh)									
Baseline Energy	.00667 I	.04238 I	.00352	.00065	.00939 R	.00079 R	.00053	.00526 I	**.06919 I**

Non-Baseline CARE**	.00667 I	.05171 I	.00352	.00065	.00939 R	.00079 R	.01294	.00526 I	**.09093 I**
Unit Discount ($/day)		(.127) R							**(.127) R**
Space Discount ($/day)		(.358) R							**(.358) R**

Notes: Transmission Energy charges include the Transmission Revenue Balancing Account Adjustment (TRBAA) of ($.00057) per kWh, the Transmission Access Charge Balancing Account Adjustment (TACBAA) of $.00028 per kWh and a Supplemental Surcharge (SS) of $.00007 per kWh. Restructuring Implementation Rate is comprised of rates for Internally Managed Costs (IMC) and Externally Managed Costs (EMC).

* Applicable to the baseline and non-baseline quantities determined from the residential dwelling units or the rented/owned and occupied mobilehome spaces utilizing service that qualify for California Alternate Rates for Energy (CARE) discounted rates as low-income households under the provisions of Special Condition 17.

** Applicable to the baseline and non-baseline quantities determined from the residential dwelling units or the rented/owned and occupied mobilehome spaces utilizing service that are not low-income households.

The Non-Baseline rates are for energy purchased from the utility in excess of the applicable baseline allowance, as computed in Special Condition 5.

In addition to the above, customers taking service under this schedule shall be subject to any existing or hereafter authorized (by the California Public Utilities Commission) standby charge and the other provisions of the utility's parallel generation or standby tariff for qualified cogeneration or small power production facilities.

Minimum Bill

Rate components of the minimum charge, including charges associated with Schedule EECC (Electric Energy Commodity Cost), will be calculated based on average minimum bill usage.

SCHEDULE D-SMF

COGENERATION OR SMALL POWER PRODUCTION ASSIST

RATES (Continued)

Rate Components
The Utility Distribution Company Total Rates (UDC Total) shown above are comprised of the following components (if applicable): (1) Transmission (Trans) Charges, (2) Distribution (Distr) Charges, (3) Public Purpose Program (PPP) Charges, (4) Nuclear Decommissioning (ND) Charge, (5) Trust Transfer Amount (TTA), sometimes referred to as Fixed Transition Amount (FTA), (6) Restructuring Implementation Rate (Restruc) which is the sum of the rates for Internally Managed Costs and Externally Managed Costs (7) Ongoing Competition Transition Charges (CTC), and (8) Reliability Must Run Generation Rates (RMR).

Utility Distribution Company (UDC) Total Rate shown above excludes any applicable commodity charges associated with Schedule EECC and Schedule DWR-BC (Department of Water Resources Bond Charge).

Discount
The charges as determined using the above Service, Demand and Energy Charges will be reduced, except for provisions of Special Condition 13., by an amount determined by multiplying 1) $0.114 per day for each residential dwelling unit or $0.323 per day for each rented/owned and occupied mobilehome space utilizing electric service, as applicable, during the billing period, times 2) the ratio of the kilowatt-hours of sales supplied by the utility, divided by the total kilowatt-hour requirement of the single family accommodations served during the same billing period.

CARE Discount
A 20% CARE discount will be applied to all CARE electric charges billed on this schedule. In addition, customers on this schedule will be exempt from paying the CARE Surcharge of $0.00046 per kWh.

Franchise Fee Differential
A Franchise Fee Differential of 5.78% will be applied to the monthly billings calculated under this schedule for all customers within the corporate limits of the City of San Diego. Such Franchise Fee Differential shall be so indicated and added as a separate item to bills rendered to such customers. T

On-Peak Time Period: All time listed is applicable to local time.
The definition of time will be based upon the date service is rendered.

	May 1 - September 30	All Other
On-Peak*	11.a.m. - 6 p.m. Weekdays	5 p.m. - 8 p.m. Weekdays

* Excludes holidays.

Where the billing month contains time from both April and May or September and October, the Demand Charge shall be based on each of the two maximum demands for the two applicable time periods weighted based on the number of days in the respective periods.
