SCHEDULE DAC-GT

DISADVANTAGED COMMUNITIES GREEN TARIFF

SPECIAL CONDITIONS

1. Definitions: The Definitions of terms used in this Schedule are found either herein or in Rule 1. Unless otherwise stated, all references to "customer" in this schedule will refer to Utility customers who have elected to participate in DAC-GT.

a. Disadvantaged Community (DAC): A community that is identified, as a census tract receiving the top 25% of overall score in CalEnviroScreen (CES) 4.0, or census tracts lacking overall scores in CES 4.0 due to data gaps, but receiving the highest 5% of CES 4.0 cumulative pollution burden score, or census tracts identified in the highest 25% of overall scores in CSE 3.0, regardless of scores in CSE 4.0, or lands under the control of federally recognized tribes. CES identifies California communities that are most effected by and vulnerable to sources of pollution. T T T N N

b. Eligible Customer: A residential utility customer located within the Utility's service territory who: (i) is located in a DAC as defined for this program; (ii) meets the CARE or FERA eligibility criteria; (iii) does not take service under net energy metering, virtual net metering, or other renewable generation tariffs; and (iv) is not currently participating in a utility pilot program.

   i. Community Choice Aggregator (CCA) & Direct Access (DA) Customers: If a CCA or Electric Service Provider (ESP) offers a CPUC-approved DAC-GT program, those enrolled in the CCA's or ESP's program will be eligible to receive the 20% discount on the SDG&E-portion of their bill, i.e., the Utility Distribution Company (UDC) charges. CCA customers cannot directly enroll in SDG&E's program.

c. DAC-GT Renewable Generating Facility: A renewable electric generation facility, located within the Utility's service territory, as well as within a disadvantaged community as defined for this program, which has contracted with Utility for the purpose of supplying renewable energy for DAC-GT.

d. CARE: California Alternative Rates for Energy program (SCHEDULE E-CARE)

e. FERA: Family Electric Rate Assistance program (SCHEDULE FERA)

f. CER: The rate schedule under which the customer is effectively enrolled for electric service.

g. Nameplate Generating Capacity: The generation capacity rating of a Renewable Generating Facility, found on the system's nameplate (in MWac).
