SCHEDULE EECC-CPP-F

EXPERIMENTAL ELECTRIC ENERGY COMMODITY COST
DOMESTIC CRITICAL PEAK PRICING SERVICE - FIXED

APPLICABILITY

Applicable to all residential bundled customers randomly selected by the Utility to participate in the Statewide Pricing Pilot (SPP) program as authorized by the California Public Utilities Commission (Commission) in D.03-03-036. The Utility reserves the right to limit the number of customers receiving service under the terms of this schedule, as described in Special Condition 2.

This schedule shall remain in effect for existing customers until December 31, 2006. The three California Utilities, under the jurisdiction of the Commission, have each established similar experimental schedules as part of the SPP. The purpose of this experimental schedule is to measure customers' demand response and experience with time differentiated energy rates. Customers will be selected to participate solely at the option of the Utility and may decline recruitment to this experimental schedule and may discontinue participation at any time.

Customers taking service under this schedule may be eligible for a 20% California Alternative Rates for Energy (CARE) discount on their bill, if all terms and conditions of the Utility's Schedule DR-LI (Domestic Service CARE Program) are met. Rates, terms and conditions in the Utility's Schedule DR (Domestic Service), Schedule DWR-BC (Department of Water Resources Bond Charge), and Schedule EECC (Electric Energy Commodity Cost) are applicable unless superseded by terms and conditions below.

TERRITORY

Within the entire territory served by the Utility.

Pricing Ratios

Participants will be randomly assigned to Pricing Ratio A or Pricing Ratio B for the duration of the SPP. Participants' electric bills will be calculated using the rates applicable to their assigned Pricing Ratio. Customers shall be informed of their assigned Pricing Ratio at the time of recruitment.

The EECC-CPP-F rates listed above supersede Schedule EECC DWR commodity rates ($/kWh), applicable to customers on this schedule. See Schedule EECC for definition and descriptions of EECC rates.

Illustrative Rates

See Schedule DR for definition and description of all the DR rates and rate components which include charges for: Transmission, Distribution, Public Purpose Programs, Nuclear Decommissioning, Trust Transfer Amount (sometimes referred to as Fixed Transition Amount), Ongoing Competition Transition Charges, and Reliability Services. See Schedule DWR-BC for definition and description of the DWR-BC rate.

The illustrative rates for Schedule DR, and Schedule DWR-BC in tables Pricing Ratio A and Pricing Ratio B are for demonstrative use only. Customer bills are calculated under currently applicable Schedule DR and Schedule DWR-BC rates. The illustrative rates above are mathematically equal to rates in Schedule DR and Schedule DWR-BC. The illustrative rates above produce the same bill charges as currently applicable under Schedule DR and Schedule DWR-BC.

See Schedule DWR-BC for definition and description of the DWR-BC rate.

The illustrative rates for Schedule DR, and Schedule DWR-BC in tables Pricing Ratio A and Pricing Ratio B are for demonstrative use only. Customer bills are calculated under currently applicable Schedule DR and Schedule DWR-BC rates. The illustrative rates above are mathematically equal to rates in Schedule DR and Schedule DWR-BC. The illustrative rates above produce the same bill charges as currently applicable under Schedule DR and Schedule DWR-BC.

Pricing Ratio B:

Description	Schedule EECC-CPP-F	Illustrative Rates DR	DWR-BC	Total Rates
Summer: ($/kWh)				
Critical Peak	0.49890	0.19585 I	0.00485	**0.69960** I
On-Peak	0.17890	0.19585 I	0.00485	**0.37960** I
Off-Peak	0.06890	0.19585 I	0.00485	**0.26960** I
Usage Adjustments:				
Baseline Usage		(0.15693) R		**(0.15693)** R
Non-Baseline Tiers:				
Up to 130% of Baseline		(0.13676) R		**(0.13676)** R
131% - 200% of Baseline		(0.02490)		**(0.02490)**
201% - 300% of Baseline		(0.01583)		**(0.01583)**
Above 300% of Baseline				
Winter: ($/kWh)				
Critical Peak	0.65570	0.20904 I	0.00485	**0.86959** I
On-Peak	0.04570	0.20904 I	0.00485	**0.25959** I
Off-Peak	0.04070	0.20904 I	0.00485	**0.25459** I
Usage Adjustments:				
Baseline Usage		(0.14315) R		**(0.14315)** R
Non-Baseline Tiers:				
Up to 130% of Baseline		(0.12298) R		**(0.12298)** R
131% - 200% of Baseline		(0.02690)		**(0.02690)**
201% - 300% of Baseline		(0.01808)		**(0.01808)**
Above 300$ of Baseline				
Minimum Bill ($/day)		0.170		**0.170**
Metering Charge ($/mo)	3.81			

Pricing Ratios

Participants will be randomly assigned to Pricing Ratio A or Pricing Ratio B for the duration of the SPP. Participants' electric bills will be calculated using the rates applicable to their assigned Pricing Ratio. Customers shall be informed of their assigned Pricing Ratio at the time of recruitment.

The EECC-CPP-F rates listed above supersede Schedule EECC DWR commodity rates ($/kWh), applicable to customers on this schedule. See Schedule EECC for definition and descriptions of EECC rates.

Illustrative Rates

See Schedule DR for definition and description of all the DR rates and rate components which include charges for: Transmission, Distribution, Public Purpose Programs, Nuclear Decommissioning, Trust Transfer Amount (sometimes referred to as Fixed Transition Amount), Ongoing Competition Transition Charges, and Reliability Services. See Schedule DWR-BC for definition and description of the DWR-BC rate.
