Schedule TOU-D
TIME-OF-USE
DOMESTIC

Sheet 1

APPLICABILITY

Available as an option to Customers eligible for service under Schedule D, D-CARE, and D-FERA. This Schedule is not available to Customers receiving service under Schedules DM, DMS-1, DMS-2, or DMS-3. Separately metered electric vehicle load is eligible for service under Option PRIME or Option PRIME-CPP of this Schedule (T)

This Schedule contains six rate structures: Option 4-9 PM, Option 4-9 PM-CPP, Option 5-8 PM, Option 5-8 PM-CPP, Option PRIME, and Option PRIME-CPP. (T)

(D)
Pursuant to Decision (D.)18-11-029, except for the Customers eligible to continue the existing dual participation in accordance with Special Condition 3.d., all Customers served under Option 4-9-CPP, Option 5-8-CPP, or Option Prime-CPP, of this Schedule are not eligible to enroll in any other demand response program offered by SCE or any third-party administered demand response program. (T) (T)

Pursuant to Special Condition 10 herein, Customers receiving service under this Schedule are eligible to receive the California Climate Credit as shown in the Rates section below.

TERRITORY

Within the entire territory served.

(Continued)

Schedule TOU-D
TIME-OF-USE
DOMESTIC

RATES

The rates below apply to all Customers receiving service under this Schedule. All available rate options under this Schedule, and the applicable rates for each option, are set forth in the rate tables below. For Customers taking service under a CPP rate option, CPP Event Energy Charges apply to all energy usage during the CPP Event Energy Charge Period. CPP Non-Event Energy Credits apply during the CPP Non-Event Energy Credit Period. The CPP Event Energy Charge Period and CPP Non-Event Energy Credit Period are described in Special Conditions 1 and 3, below: (T)

	Delivery Service	Generation[2]	
Option 4-9 PM / Option 4-9 PM-CPP	Total[1]	UG***	DWREC[3]
Energy Charge - $/kWh			
Summer Season - On-Peak	0.33582 (I)	0.25729 (I)	0.00000
Mid-Peak	0.33442 (I)	0.11506 (R)	0.00000
Off-Peak	0.26222 (R)	0.07035 (R)	0.00000
Winter Season - Mid-Peak	0.31904 (R)	0.18918 (I)	0.00000
Off-Peak	0.27056 (R)	0.09440 (R)	0.00000
Super-Off-Peak	0.25540 (I)	0.06702 (R)	0.00000
Baseline Credit**** - $/kWh	(0.09101) (R)		
Fixed Recovery Charge - $/kWh	0.01118 (I)		
MCAM Charge - $/kWh	0.00223		
Base Services Charge (BSC) - $/Meter/Day	0.794		
BSC Adjustment - Deed Restricted - $/Meter/Day	(0.328) (I)		
California Climate Credit10	(36.00)		
California Alternate Rates for Energy Discount - %	100.00**		
Family Electric Rate Assistance Discount - %	100.00		
Option 4-9 PM-CPP			
CPP Event Energy Charge - $/kWh		0.80000	
Summer CPP Non-Event Credit On-Peak Energy Credit - $/kWh		(0.15170)	
Maximum Available Credit - $/kWh*** Summer Season		(0.41944) (R)	

* Represents 100% of the discount percentage as shown in the applicable Special Condition of this Schedule.

** The ongoing Competition Transition Charge CTC of $0.00014 per kWh is recovered in the UG component of Generation.
*** The Baseline Credit applies up to 100% of the Baseline Allocation, regardless of Time-of-Use time period. Additional Baseline Allocations apply for Customers with Heat Pump Water Heaters served under this Option. The Baseline Allocations are set forth in Preliminary Statement, Part H.
****The Maximum Available Credit is the capped credit amount for CPP Customers dual participating in other demand response programs.
1 Total = Total Delivery Service rates are applicable to Bundled Service, Direct Access (DA) and Community Choice Aggregation Service (CCA Service) Customers, except DA and CCA Service Customers are not subject to the DWRBC rate component of this Schedule but instead pay the DWRBC as provided by Schedule DA-CRS or Schedule CCA-CRS.
2 Generation = The Gen rates are applicable only to Bundled Service Customers. See Special Condition below for PCIA recovery.
3 DWREC = Department of Water Resources (DWR) Energy Credit – For more information on the DWR Energy Credit, see the Billing Calculation Special Condition of this Schedule.
4 Applied on an equal basis, per household, semi-annually. See the Special Conditions of this Schedule for more information.
5 The Modified Cost Allocation Mechanism (MCAM) charge recovers the net cost associated with system reliability procurement ordered by the CPUC that SCE has procured on behalf of customers whose generation services are provided by certain Electric Service Providers or Community Choice Aggregators.

Schedule TOU-D
TIME-OF-USE
DOMESTIC

SPECIAL CONDITIONS (Continued)

1. Applicable rate time periods are defined as follows: (Continued)

CPP Event Window and Periods: (C)

CPP Event Window:	The CPP Event Window is the five-hour period from 4:00 p.m. to 9:00 p.m. during which SCE may designate the three-hour CPP Event Energy Charge Period under this Schedule.
CPP Event Energy Charge Period:	The CPP Event Energy Charge Period is the three-hour period designated by SCE within the CPP Event Window during which CPP Event Energy Charges apply to the load served by SCE.
CPP Non-Event Energy Credit Period:	During the Summer Season, the CPP Non-Event Energy Credit Period consists of the hours within the CPP Event Window during which CPP Non-Event Energy Credits apply. When a CPP Event is not called, the CPP Non-Event Energy Credit Period includes the entire CPP Event Window. When a CPP Event is called, the CPP Non-Event Energy Credit Period includes the hours within the CPP Event Window that are not designated as the CPP Event Energy Charge Period. (C)

Holidays are: New Year's Day (January 1), Presidents' Day (third Monday in February), Memorial Day (last Monday in May), Independence Day (July 4), Labor Day (first Monday in September), Veterans Day (November 11), Thanksgiving Day (fourth Thursday in November), and Christmas (December 25).

When any holiday listed above falls on Sunday, the following Monday will be recognized as a holiday. No change will be made for holidays falling on Saturday.

The Summer Season shall commence at 12:00 a.m. on June 1 and continue until 12:00 a.m. on October 1 of each year. The Winter Season shall commence at 12:00 a.m. on October 1 of each year and continue until 12:00 a.m. on June 1 of the following year.

2. Basic Charge: For purposes of applying the Basic Charge, the following definitions shall be used:

Single-Family Accommodation: A building of single occupancy that does not share common walls, floors, or ceilings with other Single-Family Dwellings, except as specified in the Multifamily Accommodation definition below.

Multifamily Accommodation: Apartments, mobilehomes, mobilehomes in a mobilehome park, condominiums, townhouses, Qualifying Recreational Vehicle Unit, Qualifying Recreational Park, Owner Lot Recreational Vehicle Park, or a building of multiple occupancy which shares common walls and/or floors and ceilings with other Single-Family Dwellings.

Schedule TOU-D
TIME-OF-USE
DOMESTIC

SPECIAL CONDITIONS (Continued)

3. Critical Peak Pricing: Critical Peak Pricing (CPP) is an event-based pricing option that provides bill credits during the Summer Season within the CPP Event Window during CPP Non-Event Credit Periods and applies incremental bill charges for load served by SCE during CPP Event Energy Charge Periods. During the Summer Season, exported generation during the CPP Non-Event Energy Credit Period may result in charges under this Schedule. Exported generation during the CPP Event Energy Charge Period may result in applicable CPP Event energy credits, regardless of the season in which the CPP Event occurs. (C) | | | | | (C)

   a. CPP Events: SCE may, at its discretion, call a CPP Event any day. CPP Events will be called based on any one of the following criteria:

      (1) California Independent System Operator (CAISO) Alert,
      (2) Forecasts of SCE system emergencies – may be declared at the generation, transmission, or distribution circuit level,
      (3) Forecasts of extreme or unusual temperature conditions impacting system demand, or
      (4) Day-ahead load and/or price forecasts.

   b. Number and Duration of CPP Events: 20 CPP Events are called per calendar year. Each CPP Event has a duration of 3 hours, for a total of 60 hours per calendar year. (C) | (C)

   c. Notification of a CPP Event: SCE will notify Customers of a CPP Event via SCE's notification system. Customers are responsible for providing SCE with contact information consisting of a telephone number, electronic mail address, and/or SMS text number for notification of CPP Events. Customers are responsible for updating Customer contact information as necessary. SCE will begin to notify Customers no later than 3:00 p.m. the day before a CPP Event. Customers are responsible for all charges incurred during a CPP Event, even if notice is not received. Customers who fail to provide the necessary contact information prior to CPP Events are responsible for all charges incurred during CPP Events.

Sheet 11

SPECIAL CONDITIONS (Continued)

3. Critical Peak Pricing: (Continued)

d. Participation in other Programs: Only Bundled Service Customers shall be served under a CPP option. Direct Access, and Community Choice Aggregation Service Customers are ineligible for service under any CPP Option of this Schedule. All Customers served under an Option with CPP of this Schedule are not eligible to dually enroll in any demand response program offered by SCE or any third-party administered demand response program. Customers served under Schedule S are not eligible for service under an Option with CPP of this Schedule. Customers served under this Schedule are eligible for service under Net Energy Metering Schedules.

For CPP Customers eligible to continue to dually participate with Schedule D-SDP, the sum of credits provided by the dual participating demand response program of this Schedule will be capped.

e. Bill Protection: The purpose of Bill Protection is to ensure that a Customer served on CPP is billed an amount no greater than what the Customer would otherwise be billed under the applicable Options without CPP (e.g., Option 4-9, Option 5-8, Option Prime of this Schedule), up to the first 12 months of service on CPP.

A Customer served on CPP will receive a one-time Bill Protection credit for the positive sum, if any, in total CPP Event Energy Charges and total CPP Summer Non-Event Energy Credits as calculated under a the applicable Option with CPP, and as measured over a period of up to 12 months from the date the Customer elects an Option with CPP.

TIME-OF-USE
DOMESTIC

SPECIAL CONDITIONS (Continued)

3. Critical Peak Pricing (Continued):

f. CPP Minimum Participation Period:

A Customer who elects to participate in an Option with CPP must remain on CPP for a minimum of 12 months and may not elect another Option without CPP during that period. (N)

(N)
(D)

4. PRIME Separately-Metered Electric Vehicle (EV) Option Eligibility Requirements: (T)

Beginning October 1, 2022, the PRIME Separately-Metered EV Option is applicable to customers with a separate meter provided by SCE exclusively for the charging of Electric Vehicles, as defined in Rule 1.

All charges in the Option PRIME/Option PRIME-CPP RATES section above apply, in addition to the EV Meter Credit.

(Continued)

Schedule TOU-D
TIME-OF-USE
DOMESTIC

SPECIAL CONDITIONS (Continued)

5. Change of Rate Schedule: At any time, a Customer on this Schedule may elect to leave his/her Option (e.g., Option 4-9 PM, Option 5-8 PM, Option PRIME) and elect to either: (1) switch to another Option of this Schedule for which they are eligible, or (2) transfer from this Schedule to another applicable residential rate schedule. The elected rate change will become effective on the next regularly scheduled meter read date following the Customer's notice to SCE. Unless the Customer was placed on an Option by SCE (i.e., defaulted), the Customer shall not be allowed to make an additional change in rate until 12 months of service has been provided under the elected rate, unless otherwise specified in that rate schedule. (T)

6. California Alternate Rates for Energy (CARE) Discount: Customers who meet the definition of a CARE Household, as defined in Schedule D-CARE, may qualify for a 32.5 percent discount off of their electric bill prior to the application of the Public Utilities Commission Reimbursement Fee (PUCRF) and any applicable user fees, taxes, and late payment charges. Eligible CARE Customers are required to pay the PUCRF and any applicable user fees, taxes, and late payment charges in full. In addition, eligible CARE Customers are exempt from paying the CARE Surcharge of $0.215 per meter per day, the CARE exempted Public Purpose Programs Charge of ($0.025) per meter per day, the Wildfire Fund Non-Bypassable Charge of $0.00591 per kWh, and the Fixed Recovery Charge of $0.01118 per kWh. CARE Customers are exempt from the Base Services Charge Surcharge of $0.069 per meter per day and are provided a Base Services Charge Discount of $(0.164) per meter per day to reduce their Base Services Charge. An application and eligibility declaration is required for service under this Special Condition. Eligible Customers shall have the CARE Discount applied to this Schedule commencing no later than one billing period after receipt and approval of the Customer's application by SCE. Customers may be rebilled for periods in which they do not meet the eligibility requirements for the CARE Discount. Customers receiving service under the Family Electric Rate Assistance (FERA) Discount Special Condition of this Schedule are not eligible to take service under this Special Condition. (T) (I)(N) (N)(I) (I) (R)

7. Family Electric Rate Assistance Discount: Customers who meet the definition of a FERA household, as defined in Schedule D-FERA, may qualify for an 18.0 percent discount off of their bill prior to the application of any applicable taxes and late payment charges. In addition, FERA Customers are exempt from the Base Services Charge Surcharge of $0.069 per meter per day and are provided a Base Services Charge credit adjustment of $(0.197) per meter per day to reduce their Base Services Charge. An application and eligibility declaration is required for service under this Special Condition. Eligible Customers shall be billed on this Special Condition commencing no later than one billing period after receipt and approval of the Customer's application by SCE. Customers may be rebilled for periods in which they do not meet the eligibility requirements for the CARE Discount. Customers receiving service under the CARE Discount Special Condition of this Schedule are not eligible to take service under this Special Condition. (T)

Schedule TOU-D
TIME-OF-USE
DOMESTIC

SPECIAL CONDITIONS (Continued)

8. Arrearage Management Plan (AMP): AMP is a debt forgiveness payment plan option for eligible residential Customers. An eligible Customer is a Customer who has been an SCE Customer for a minimum of six months, enrolled in the CARE or FERA program, made at least one on-time payment,[1] and has a past due bill (i.e., arrearage) balance of $500 or greater which is 90 days or older. Once enrolled in the AMP, SCE shall forgive 1/12 of an eligible residential Customer's arrearage after each on-time payment. After 12 on-time payments, SCE shall forgive the remaining arrearage debt up to a maximum of $8,000 per instance of enrollment. After successfully completing the AMP plan, a customer can re-enroll after a 12-month waiting period beginning the first month after the AMP was successfully completed. A Customer can miss up to two non-sequential payments if the Customer makes up the payment on the next billing due date with an on-time payment of both the current and missed payments. This can occur twice during the 12 months a Customer is on AMP. On the third instance, the Customer will be removed from the AMP. If a Customer is removed from AMP before reaching 12 on-time payments, there will be no impact on the 1/12th debt forgiven for previous on-time payments. Customers who are removed from the AMP program may re-enroll after a 12-month waiting period, assuming they meet the eligibility requirements, beginning the first month after the eligible Customer was removed. Any Customers who are removed from CARE/FERA while on AMP will be given the opportunity to complete their AMP but will be unable to re-enroll in the future unless they met the eligibility requirements. Low-Income Home Energy Assistance Program assistance will be applied to the monthly bills, not the arrearage. When extenuating circumstances occur that are the result of SCE operations, exceptions to these AMP rules are permitted as follows: (1) a Customer removed from AMP may re-enroll in AMP prior to the 12-month waiting period; (2) an AMP Customer who receives and pays on a bill consisting of multiple months' charges will receive 1/12 arrearage forgiveness for each month's charges that are ultimately paid on time; (3) for an AMP Customer who receives a delayed bill and does not entirely pay the bill consisting of multiple months' charges, the unpaid amounts associated with prior months' charges will be due and eligible for a payment arrangement when the Customer exits AMP; (4) any AMP forgiveness that was or will be applied between an AMP Customer's enrollment in an NEM tariff and the Customer's removal from AMP will remain on the Customer account. (T)

1. An on-time payment is defined as payment that equals or exceeds the current monthly bill within 19 days of the bill date.

(Continued)

Schedule TOU-D
TIME-OF-USE
DOMESTIC

SPECIAL CONDITIONS (Continued)

9. Billing Calculation: A Customer's bill is calculated according to the rates and conditions above. (T)

The residential Base Services Charge is a fixed daily charge designed to cover the costs connecting each Customer to the electric grid and providing state programs to assist income-qualified Customers. Customers enrolled in CARE or FERA, or living in Deed Restricted Affordable Housing (DRAH) are provided a discount to reduce their Base Services Charge. DRAH will be identified by the California Housing Partnership database. For properties with less than 80 percent of units identified as DRAH, Customers or tenants must contact SCE or visit www.sce.com and self-attest to living in a DRAH to qualify for the DRAH discount to reduce their Base Services Charge. DRAH Customers or tenants are exempt from the Base Services Charge Surcharge of $0.069 per meter per day and are provided a Base Services Charge Discount of $(0.328) per meter per day to reduce the Base Services Charge. (I)

The charges listed in the Rates section are calculated by multiplying the total Delivery Service rates and the Generation rates, when applicable, by the billing determinants (e.g., per kilowatt [kW], kilowatt-hour [kWh], etc.). The Energy Charge varies each month based on how much electricity a Customer uses.

As of January 1, 2012, all generation supplied to Bundled Service Customers is provided by SCE. The DWR Energy Credit provided to Bundled Service Customers is determined by multiplying the DWR Energy Credit rate component by the Customer's total kWhs.

a. Bundled Service Customers receive Delivery Service and Generation service from SCE. The Customer's bill is the sum of the charges for Delivery Service and Generation service determined, as described in this Special Condition, and subject to applicable discounts or adjustments provided under SCE's tariff schedules.

b. Direct Access Customers receive Delivery Service from SCE and purchase energy from an Energy Service Provider. The Customer's bill is the sum of the charges for Delivery Service determined as described in this Special Condition except that the DWRBC rate component is subtracted from the total Delivery Service rate before the billing determinants are multiplied by such resulting total rate; plus the applicable charges as shown in Schedule DA-CRS and subject to applicable discounts or adjustments provided under SCE's tariff schedules.

(Continued)

Schedule TOU-D
TIME-OF-USE
DOMESTIC

SPECIAL CONDITIONS (Continued)

9. Billing Calculation (Continued) (T)

   c. CCA Service Customers receive Delivery Service from SCE and purchase energy from their Community Choice Aggregator (CCA). SCE will read the meters and present the bill for both Delivery Service and Generation to the CCA Service Customer. The Customer's bill is the sum of the charges for Delivery Service as displayed in this Rate Schedule and Generation charges determined by the CCA plus the applicable charges as shown in Schedule CCA-CRS, and subject to applicable discounts or adjustments provided under SCE's tariff schedules.

10. Residential California Climate Credit: A credit from the State of California to fight climate change. The credit is applied after the calculation of city and county utility users' taxes on customers' utility bills and prior to the application of franchise fees on an equal basis, per household, to the billing statements of Customers receiving service under this schedule at the time the California Climate Credit is disbursed. Any California Climate Credit not consumed in the billing period in which the credit is applied will roll over to each subsequent billing period until the credit is fully consumed. (T)

11. Customer-Owned Electrical Generating Facilities: (T)

   a. For customers not eligible for service under Schedule NEM, Net Energy Metering, Schedule NEM-ST or Schedule NBT, Net Billing Tariff, and where customer-owned electrical generating facilities are used to meet a part or all of the customer's electrical requirements, service shall be provided concurrently under the terms and conditions of Schedule S and this Schedule. Parallel operation of such generating facilities with SCE's electrical system is permitted. A generation interconnection agreement is required for such operation.

(Continued)

Schedule TOU-D
TIME-OF-USE
DOMESTIC

SPECIAL CONDITIONS (Continued)

11. Customer-Owned Electrical Generating Facilities: (Continued) (T)

b. For customers of record on Schedule D-PG as of April 30, 1996, who were subsequently transferred by SCE to an applicable Domestic rate schedule, who have a valid Qualifying Facilities (QF) contract with SCE, and who are not eligible for service under Schedule NEM, Net Energy Metering, or its successor, Schedule NEM-ST, the Energy Charges for such parallel generation Customers shall be determined using kWh of Net Energy as defined and set forth below:

c. Customer-owned electrical generating facilities used solely for auxiliary, emergency, or standby purposes (auxiliary/emergency generating facilities) to serve the customer's load during a period when SCE's service is unavailable and when such load is isolated from the service of SCE are not subject to Schedule S. However, upon approval by SCE, momentary parallel operation may be permitted to allow the Customer to test the auxiliary/emergency generating facilities. A Momentary Parallel Generation Contract is required for this type of service.

12. San Joaquin Valley Disadvantaged Communities Pilot Projects (SJV Pilot) Bill Protection Discount: In accordance with Decision 18-12-015 and Resolution E-5034, Customers participating in the SJV Pilot and entering into the associated service agreement will receive a 10-year Bill Protection Discount beginning after the first electric appliance is installed in a participant's home and one full billing cycle has concluded. The monthly Bill Protection Discount will be provided as follows: (T)

Years 1-5 of SJV Pilot participation: 20 percent discount
Years 6-10 of SJV Pilot participation: 10 percent or 20 percent discount

SCE will evaluate Pilot participants' total energy costs savings beginning three and half years after the first SJV Pilot participant receives a Bill Protection Discount. This evaluation will analyze total energy costs for all SJV Pilot participants who have received at least 24 consecutive months of electricity bills with a Bill Protection Discount, and it will be based on collected and modeled propane data and actual participant's electricity costs pre-Pilot and post-Pilot;

(D)

(Continued)

Schedule TOU-D
TIME-OF-USE
DOMESTIC

SPECIAL CONDITIONS (Continued)

13. San Joaquin Valley Disadvantaged Communities Pilot Projects (SJV Pilot) Bill Protection Discount: (Continued) (T)

    a. If the evaluation finds that all participants in the evaluation study, except quantitatively-measurable statistical outliers, experience energy costs savings (i.e., total energy costs have not increased), SCE shall reduce the monthly electricity bill discount to a 10 percent discount for an additional five years; or

    b. If the evaluation finds that any participants in the evaluation study, except quantitatively-measurable statistical outliers, experience an energy cost increase, SCE shall continue to provide a 20 percent discount for an additional five years.

    If the customer service agreement changes during the 10-year bill protection period (i.e., change of property ownership, change in occupancy) the Bill Protection Discount and Transitional Community Solar Discount shall be terminated. A new customer moving into an electrified house shall not receive the SJV Pilot Bill Protection Discount or Transitional Community Solar Discount.

14. Transitional Community Solar Discount: SJV Pilot participants eligible for the Community Solar-Green Tariff (CSGT) or the Disadvantaged Communities-Green Tariff (DAC-GT) program shall be provided a 20 percent Transitional Community Solar monthly bill credit for the 10-year bill protection period if neither program is available when the SJV Pilot participant receives the first Bill Protection Discount. If the DAC-GT or CSGT programs are available, yet a customer cannot participate due to subscription or locational limitations, the 20 percent Transitional Community Solar Discount will still apply. The Transitional Community Solar discount will not apply to customers who have onsite solar through the Single-Family Affordable Solar Homes (SASH) program, the Disadvantaged Communities SASH (DAC-SASH) program, Net Energy Metering (NEM), or through another program. (T)

15. PCIA Recovery in Bundled Generation Rates: Bundled Service Customer Generation charges include an amount to recover the above-market portion of SCE's generation portfolio. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources. This above-market portion is referred to as the Power Charge Indifference Adjustment (PCIA) amount and is shown on Bundled Service Customers' bills under the description of the Generation charge. (T)

16. Fixed Recovery Charge. SCE has been permitted to issue bonds that enable it to recover more quickly certain costs related to preventing and mitigating catastrophic wildfires, while reducing the total cost to its customers. The Fixed Recovery Charge (FRC) has been approved by the CPUC to repay those bonds. The right to recover the FRC has been transferred to a separate entity (called the Special Purpose Entity) that issued the bonds and recovery does not belong to SCE. SCE is collecting the FRC on behalf of the Special Purpose Entity. (T)

Schedule TOU-D
TIME-OF-USE
DOMESTIC

SPECIAL CONDITIONS (Continued)

16. Electric Vehicle (EV) Submetering: (T)

Where electricity is furnished for EV charging, a Customer may use an EV submeter to measure EV charge load provided it meets the requirements established in the Plug-In Electric Vehicle Submetering Protocol (i.e., Decision 22-08-024). All charges in the Option PRIME/Option PRIME-CPP RATES section above apply for the EV submeter, in addition to the EV Submeter Credit.
