## SCHEDULE 111
## GREENHOUSE GAS EMISSIONS CAP AND INVEST ADJUSTMENT

**APPLICABILITY:** This rate adjustment shall be applied to the rate(s) shown on each schedule for Electric Service for all Customers during a month when this schedule is effective, with the exception of those Customers identified in the Special Terms and Conditions section below.

**PURPOSE:** The purpose of this schedule is 1) to implement a surcharge to recover the costs from the Company's compliance with the Washington State Greenhouse Gas Emissions Cap and Invest Program as prescribed in Chapter 70A.65 Revised Code of Washington ("RCW"), as relates to a Customer's Electric Service; and 2) to implement a credit to allow for passing back the forecasted value of no-cost allowances used for compliance up to the level of allowance costs recovered through the Power Cost Adjustment Mechanism ("PCA"), Schedule 95 Power Cost Adjustment Clause. Interest on uncollected or pre-collected compliance costs will be calculated on the Company's actual cost of debt, updated semi-annually, to be credited or charged to Customers. (C) (C) I (C)

**DEFINITIONS:**

**Compliance Period** means the four-year period for the Compliance Obligation, as defined in RCW 70A.65.010(19). The first four-year Compliance Period contains the emissions years 2023 through 2026. The second four-year Compliance Period of RCW 70A.65 contains the emissions years 2027 through 2030.

**Emissions-Intensive Trade-Exposed** or **Emissions-Intensive Trade-Exposed Manufacturing Facility (per WAC 173-446A-030) ("EITE")** means a Customer owning facilities identified by the Department of Ecology as an emissions-intensive, trade-exposed industry entity under RCW 70A.65.110, where there is such evidence that is available or made available to the Company. It is the responsibility of the Customer to ensure that the Company has received such evidence of the Customer's status as an EITE. It is also the responsibility of the Customer to ensure that the Company is notified about whether the Customer receives no-cost allowances, for Electric Service from the Company, directly from the Department of Ecology per RCW 70A.65.120(5). A Customer who is an EITE is not exempt from charges under this schedule if they are taking Electric Service from the Company.

**DEFINITIONS:** (Continued)

**National Security Entity** means a Customer at a facility that meets the criteria of RCW 70A.65.080(7)(f); a facility with a confirmed North American Industry Classification System Code of 928110 (National Security) or government establishments of the armed forces primarily engaged in national security and related activities where there is such evidence that is available or made available to the Company. It is the responsibility of the Customer to verify that the Company has received such evidence of the Customer's status as a National Security Entity.

**SPECIAL TERMS AND CONDITIONS:**

1. Monthly rates under this schedule are applicable, except for the following Customers:
   a. A Customer with facilities with North American industry Classification System code 928110 (National Security);
   b. A Customer who has provided evidence to the Company that the Customer is registered as a National Security Entity, or has provided it to the Company by the Department of Ecology 90 days before the beginning of the start of a new Compliance Period will not be charged under this schedule at the beginning of the following Compliance Period. For the Compliance Period beginning in January 1, 2023, a Customer must provide such evidence within 150 days of the initial effective date of this tariff to not be charged under this schedule beginning on the date of verification. It is ultimately the responsibility of the Customer to verify that the Company has received such evidence of the Customer's correct status, before the start of a new Compliance Period.
   c. A Customer taking service under Schedule 449, Schedule 459, Special Contract or other non-consumption Schedules (e.g. Schedule 62).
   d. A Customer taking optional service under Schedule 139, Voluntary Long Term Renewable Energy Purchase Rider.

**TRUE-UP:**

a. **True-Up for State Carbon Reduction Charge:** Each year the Company estimates the amount of costs for the Company to comply with the Greenhouse Gas Emissions Cap and Invest Program pursuant to RCW Chapter 70A.65, as well as provides for a true-up of amounts from prior periods.

b. **General Revenue True-Up:** A true-up will be included for the difference between what was expected to be collected when rates were set the previous year versus the amount actually collected.

c. **True-Up for Supplemental State Carbon Reduction Charge:** Similar true-ups for the Supplemental State Carbon Reduction Charge will be calculated and collected or passed back in the State Carbon Reduction Charge.

**STATE CARBON REDUCTION CHARGE MONTHLY RATE:** Starting August 1, 2025, this State Carbon Reduction Charge rate shown below and on the following sheets shall be added to the rate(s) shown on each schedule for electric service, with the exception of those Customers who are identified as exempt from the State Carbon Reduction Charge in the Special Terms and Conditions section. This State Carbon Reduction Charge rate shall not be applicable to the electric energy delivered to Customers under any special contract unless specifically included by such special contract. The tariff revisions related to CCA allowances for calendar years 2023 through 2025 are effective through January 1, 2027. The tariff revisions for calendar year 2026 CCA allowances will be subject to review and revision in the Company's upcoming general rate case or February 28, 2027, whichever occurs first. **SUPPLEMENTAL RATE PURPOSE:** To implement a surcharge to recover the costs of obligations from the Company's compliance with the Washington State Greenhouse Gas Emissions Cap and Invest Program as prescribed in Chapter 70A.65 RCW for the time period of January 2023 through December 2024 and a pro-rata share of 2025 as ordered by the Commission. Final determination of prudency of these costs will occur after the end of the first four-year Compliance Period, which ends in 2026. The costs recovered through this section are subject to review and refund as ordered by the Commission.

**STATE CARBON REDUCTION CHARGE SUPPLEMENTAL MONTHLY RATE:** Starting August 1, 2025, through December 31, 2026, this State Carbon Reduction Charge Supplemental rate shall be applicable to the electric energy delivered to Customers under any schedule contained in this tariff, with the exception of those Customers who are identified as exempt from the State Carbon Reduction Charge in the Special Terms and Conditions section. This State Carbon Reduction Charge Supplemental rate shall not be applicable to the electric energy delivered to Customers under any special contract unless specifically included by such special contract.
